For over a century the ten-volume Dictionary of the Bible has been the definitive reference. "It is a Dictionary of the Old and New Testaments, together with the Old Testament Apocrypha, according to the Authorized and Revised English Versions, and with constant reference to the original tongues. ... Articles have been written on the names of all Persons and Places, on the Antiquities and Archaeology of the Bible, on its Ethnology, Geology, and Natural History, on Biblical Theology and Ethic, and even on the obsolete or archaic words occurring in the English Versions." Easton, M.A., D.D. (1823-1894), which was originally published in 1897. It contains nearly 4,000 entries relating to the Bible, all from a 19th century Christian viewpoint. This is volume 2 from G to N.

The purpose of this dictionary is to give an account of everything that relates to Christ - His Person, Life, Work, and Teaching. It is in a sense complementary to the Dictionary of the Bible, in which, of course, Christ has a great place. But a dictionary of the Bible, being occupied mainly with things biographical, historical, geographical, or antiquarian, does not give attention to the things of Christ sufficient for the needs of the preacher, to whom Christ is everything. This is, first of all, a preacher's dictionary. The authors of the articles have been carefully chosen from among those scholars who are, or have been, themselves preachers. And even when the articles have the same titles as articles in the Dictionary of the Bible, they are written by new men, and from a new standpoint. It is thus a work which is quite distinct from, and altogether independent of, the Dictionary of the Bible. It is called a Dictionary of Christ and the Gospels, because it includes everything that the Gospels contain, whether directly related to Christ or not. Its range, however, is far greater than that of the Gospels. It seeks to cover all that relates to Christ throughout the Bible and in the life and literature of the world. There will be articles on the Patristic estimate of Jesus, the Medieval estimate, the Reformation and Modern estimates. There will be articles on Christ in the Jewish writings and in the Muslim literature. Much attention has been given to modern thought, whether Christian or anti-Christian. Every aspect of modern life, in so far as it touches or is touched by Christ, is described under its proper title. James Hastings (1852-1922) was a distinguished scholar and pastor. Rabbinic theological language has made possible a vast range of discourse, on many subjects over long spans of recorded time and in diverse cultural settings. This theological dictionary defines the principal theological usages of Rabbinic Judaism as set forth in the Rabbinic canon of late antiquity, Mishnah, Talmuds, and Midrash-compilations. It systematically lays [1] the theological categories that are native to those writings; [2] cogent statements that can be made with them; [3] coherent propositions that those statements set forth and (within their own terms

and framework) logically demonstrate as true and self-evident, both. Volume One of this dictionary covers vocabulary that permits the classification of religious knowledge and experience, and the organization and categorization of those data into intelligible and cogent sense-units. Volume Two shows how these classifications combine and recombine in sentences. We may deem these rules of theological discourse concerning religious experience to be the counterpart of syntax which words combine (or do not combine) with which other words, in what inflection or signaled relationship, and why. Volume Three shows how the theology accomplishes its goals of analysis, explanation, and anticipation in order to make sense of and impose meaning upon a subject. That marks the point at which constructive theology commences and systematic theology will find its language.
