One small act of kindness ripples out to connect four kids in this stirring novel by the author of the beloved *The Benefits of Being an Octopus*. Libby comes from a long line of bullies. She wants to be different, but sometimes that doesn't work out. To bolster herself, she makes a card with the message *You are amazing*. That card sets off a chain reaction that ends up making a difference in the lives of some kids who could also use a boost—be it from dealing with bullies, unaccepting families, or the hole that grief leaves. Receiving an encouraging message helps each kid summon up the thing they need most, whether it's bravery, empathy, or understanding. Because it helps them realize they matter—and that they're not flying solo anymore.

Introducing a host of wonderful characters who will make bedtime fun for the whole family! Meet Jaya and her shell-ship; Meena with her huffy-puffy chapattis; Thangi and her friend the sun; the flying house; the wandering elephant; the helpful yeti and a host of other delightful characters. Travel around the world and to faraway galaxies, learn how to tie new kinds of turbans and hear about the antics of the talking furniture in this gorgeously illustrated and wonderfully imaginative collection of stories from India.

Seventy-three extracts from books published between 1902 and 1989 for children ages eight to fourteen reflect the best writing from England, Australia, New Zealand, and the United States. Includes biographical notes on all the authors.

Take a deep breath and dive into the mysteries of the ocean. Our understanding of ocean life has changed dramatically in the last decade, with new species, new behaviours, and new habitats being discovered at a rapid rate. *Blue Planet II*, which accompanies an epic 7-part series on BBC1, is a ground-breaking new look at the richness and variety of underwater life across our planet. From ambush hunters such as the carnivorous bobbit worm to cuttlefish mesmerising their prey with a pulsating light display, *Blue Planet II* reveals the never-before-seen secrets of the ocean. With over 200 breath-taking photographs and stills from the BBC Natural History Unit's spectacular footage, each chapter of *Blue Planet II* brings to life a different habitat of the oceanic world. Voyages of migration show how each of the oceans on our planet are connected; coral reefs and arctic ice communities are revealed as thriving underwater cities; while shorelines throw up continual challenges to those living there or passing through. A final chapter explores the science and technology of the Ocean enterprise – not only how they were able to capture these amazing stories on film, but what the future holds for marine life based on these discoveries.

The inspiring story of a young ornithologist who reintroduced puffins where none had been seen for a century Project Puffin is the inspiring story of how a beloved seabird was restored to long-abandoned nesting colonies off the Maine coast. As a young ornithology instructor at the Hog Island Audubon Camp, Dr. Stephen W. Kress learned that puffins had nested on nearby islands until extirpated by hunters in the late 1800s. To right this environmental wrong, he resolved to bring puffins back to one such island--Eastern Egg Rock. Yet bringing the plan to reality meant convincing skeptics, finding resources, and inventing restoration methods at a time when many believed in "letting nature take its course." Today, Project Puffin has restored more than 1,000 puffin pairs to three Maine islands. But even more exciting, techniques developed during the project have helped to restore rare and endangered seabirds worldwide. Further, reestablished puffins now serve as a window into the effects of global warming. The success of Dr. Kress's project offers hope that people can restore lost wildlife populations and the habitats that support them. The need for such inspiration has never been greater.
