It was the week of Great Kublai Khan's birthday, September 28, the twenty-eighth day of the lunar cycle, 1274. After returning from their search for the Chintamani Stone, Marco Polo and Lord Su Che were present at a secret meeting held by the Phags-pa lama Baron Kuo-Shi and Baron Ch'en-liu. They heard a story told by Rabbi Benjamin of Tudela of a people called the Dogon of West Africa. The Dogon spoke of the star Sirius, of space travelers and a secret tunnel to the top of the earth to a secret place called Shambhala. And then Lord Su Che and Marco Polo are summoned by the Empress Chabi to the Green Palace and are told by the Empress Chabi: "Lord Su Che I arranged a meeting with our mysterious Royal guest Baron Ch'en-liu and the Hoopala; we spoke of Shambhala, of Rabbi Benjamin of Tudela's story of the Dogon and a secret place called Shambhala, and of space travelers."

In this step-by-step guide James Redfield begins his exploration of the emerging interest in spirituality around the globe. Beginning with a survey of the most common synchronistic experiences, he shows how those interested in broadening their spiritual perception can actually experience for themselves the shifts in consciousness that are changing the human world. Described as the most direct explanation of the new world vision presented in the phenomenally successful Celestine fiction series, this fascinating and illuminating book reveals the author's inside view of how we are discovering the transcendent in our everyday existence and interpreting our individual synchronicity to find our destined purpose in life. Based on James Redfield's own experiences and those reported to him from every corner of the world since the writing of *The Celestine Prophecy* and *The Tenth Insight*, this book describes the first-

generality, finding provisional grounds for resistance in nonlocal transnational spaces that embody quotidian hopes, desires, and anxieties. By studying the real and imagined dimensions of these popular geographies, his book seeks resources for social betterment in the fallen mythologies of the contemporary postutopian world.

Many know of Shambhala, the Tibetan Buddhist legendary land of spiritual bliss popularized by the film, Shangri-La. But few may know of the role Shambhala played in Russian geopolitics in the early twentieth century. Perhaps the only one on the subject, Andrei Znamenski's book presents a wholly different glimpse of early Soviet history both erudite and fascinating. Using archival sources and memoirs, he explores how spiritual adventurers, revolutionaries, and nationalists West and East exploited Shambhala to promote their fanatical schemes, focusing on the Bolshevik attempt to use Mongol-Tibetan prophecies to railroad Communism into inner Asia. We meet such characters as Gleb Bokii, the Bolshevik secret police commissar who tried to use Buddhist techniques to conjure the ideal human; and Nicholas Roerich, the Russian painter who, driven by his otherworldly Master and blackmailed by the Bolshevik secret police, posed as a reincarnation of the Dalai Lama to unleash religious war in Tibet. We also learn of clandestine activities of the Bolsheviks from the Mongol-Tibetan Section of the Communist International who took over Mongolia and then, dressed as lama pilgrims, tried to set Tibet ablaze; and of their opponent, Ja-Lama, an "avenging lama" fond of spilling blood during his tantra rituals.

The book is about the fact that in the thirties of the twentieth century, there was an expedition to find the message of Hitler's notorious Tibet Shambhala. At the same time, Russian intelligence learned of the expedition and sent one of their men. Colonel Schwartz destroyed the Russian and went into Shambhala. There, still unknown to what purpose, the ancient people that had survived in Shambhala gave Schwartz coordinates to a secret base of some ancient civilization. Schwartz reported to Hitler, and he agreed to send submarines to Antarctica. Schwartz did find a base there and even UFOs. He faced new aircraft, and he even flew to the moon. But the inhabitants of Shambhala had an interest—they had long conceived to take possession of some device that could animate the ruined planet. At that time, Schwartz tossed the captured Russian, who would pilot a flying saucer. The Russian knew of the job and the secret of Shambhala but refused to talk about it to Schwartz. The colonel agreed to fly to

another galaxy to understand who and what was using it. And meanwhile, there was a building in Antarctica New Swabia, shelters for the top of the Reich. Schwartz successfully flew to Mars and found there some civilization that lived deep beneath the surface. Then the colonel's group went for the mysterious cargo. Schwartz had many adventures on the way, but he was able to deceive the enemy and captured the mysterious cube—the device that the people of Shambhala wanted to get. Schwartz understood that this cube could be a dangerous weapon and decided to hide it so it would not be found by Hitler. Colonel radically changed his attitude and then realized that the war was very bad. Americans learned about the construction of the base and sent their fleet, but the colonel did not want to fight the war—it was really bad. A pioneer in introducing Tibetan Buddhism to the West, Chogyam Trungpa is also one of its

most controversial figures. Born in Tibet and trained in the traditional manner, he arrived in the U.S. in 1970, a time when there was virtually no knowledge of Buddhism in the general culture. He defied notions of how a holy man should act. Dressing in Western clothing and at times exhibiting unconventional behavior, his "crazy wisdom" made him a magnet for a generation of spiritual seekers. One of those seekers was Jeremy Hayward. This intimate memoir begins with their first meeting in 1970, then progresses year by year until Trungpa's death and beyond. Hayward vividly describes Trungpa's powerful, direct way of working with students, his groundbreaking work in bringing Buddhism to the West, and the teachings Trungpa presented each year. He also describes his own personal spiritual journey with Chogyam Trungpa as a guide.

H.P. Blavatsky's *The Secret Doctrine* is the foundational text for the dissemination of the esoteric tradition, as promulgated by the Masters of Wisdom for this new epoch. The Theosophical Society, the writings of Alice Bailey, Helena Roerich and other esotericists, are founded upon the basis of the advanced esoteric doctrines promulgated in that text. Here, for the first time, a proper exposition of the mode of the coding of the esoteric texts presented by the Masters is revealed. The object being to assist serious students of the esoteric doctrines to gain much deeper insights as to the nature of the hidden wisdom of the revelatory writings emanating from the Hierarchy of enlightened beings. This book consequently presupposes that the reader is familiar with the context of the writings of the above authors, and also my writings, because of the nature of the advanced esotericism that needs to be explicated. The focus of this analysis is upon the Stanzas of Dzyan (stanzas for meditation), the backbone of *The Secret Doctrine*. Those that take the time to properly study the texts will comprehend the vastness of the philosophy and awareness attained by enlightened beings, and so hopefully aspire to likewise gain enlightenment.
