Women are built differently, ride differently, train differently, burn different macronutrients as fuel, and have a different relationship with their bikes than men do.

It's only natural they should need their own comprehensive cycling book. The *Bicycling Big Book of Cycling for Women* is an instructional manual geared specifically toward women. It breaks down the sport of cycling into easily digestible sections, beginning with the history of women's cycling and progressing into equipment, lifestyle, technique, training, and fitness goals. The book also includes a women-specific section that covers cycling while menstruating, cycling while pregnant, how menopause affects training, and how specific parts of the female body are uniquely affected by cycling. The *Bicycling Big Book of Cycling for Women* will serve as an indispensable, lifelong guide for every female cyclist.

The *Bicycling Big Book of Training* is an encouraging, focused training book that will speak to beginner and intermediate cyclists without making them feel like novices. It covers all the information the reader needs to begin an effective training regimen. The book is divided into five sections that are then broken into miniguides for various cycling training disciplines. Cyclists will learn about how the body becomes fit and how that fitness

translates to on-the-bike performance, while discovering the components of a successful training plan, including nutrition. Furthermore, riding disciplines such as road racing, endurance events, cyclocross, mountain biking, and track are discussed at length so readers can figure out which activities are right for them. The *Bicycling Big Book of Training* is an excellent guide for anyone who wants to learn more about cycling and take their performance to the next level.
