What would it be like to know that you are indeed immortal, that your physical body is but the outward form taken by your own eternal inner form or soul body? What would it be like to dissolve the bodily boundaries that seem to separate you from the souls of others, learning to feel your soul in their body and their soul in yours? What would it be like to see and feel your partner as the embodiment of a god or goddess, and to experience the bliss of 'soul body sex' - an intensely sensual intimacy and intercourse with their divine soul body? The New Yoga is a yoga of the soul body - that body with which we can intimately sense, feel and touch others - independently of physical contact. The New Yoga is also 'Tantra Reborn', giving rebirth to the tantric tradition known as Kashmir Shaivism through a wholly new understanding of its sexual symbolism and of 'tantric sex' - seen not merely as a heightening or spiritual elevation of bodily sex, but as an expression of the sublime sensuality and divine sexuality of the soul and its body. 'Tantra Reborn' explains in detail the anatomy, nature and powers of the soul body, its relation to gender and sexuality, to tantric initiation and to the traditional tantric symbolism of 'Shiva-Shakti' and 'Kundalini'. It also offers a practical guide to experiencing the bliss of soul body intercourse through new and original forms of tantric pair and partner meditation.

They say college is where you learn a lot about yourself. Well... in college I learned I wasn't as straight as I thought I was... ..And that I could fall in love with a woman. It was Angela who taught me that. We were just roommates. Two out-of-our-minds-horny roommates. At first I thought what I was feeling was a strange kind of displaced lust. I mean... I was innocent. didn't have a boyfriend. But the way my body would react when I saw her... The way I would focus on her lips... imagine them on mine. The way heat surged into my center. I couldn't explain it. Then I started to notice something else. When I was with her... the world seemed brighter. When she laughed, my heart leapt. When she met my eyes... I felt like I was falling into her gaze. But we're just two straight girls who happen to be roommates. This can't possibly be happening... can it? Turning Point is a steamy lesbian romance-with-a-happy-ending that tells the story of two roommates finding their true selves, and stumbling upon unexpected true love.

A world-renowned critical care doctor offers hope for ICU patients and their families in this timely, urgent, and compassionate narrative. Over the next ten years, 40 to 60 million people in this country will be admitted to the ICU. Most of these hospitalizations will be sudden, unexpected, and harrowing, experiences that can alter patients and their families physically and emotionally, with effects that endure for years. Every Deep-Drawn Breath is a rich blend of science, medical history, profoundly humane patient stories, and personal reflection. Dr. Wes Ely's mission is to prevent patients from being inadvertently harmed by the technology that is keeping them alive. Readers will experience the world of critical care through the eyes of this physician who drastically changed his clinical practice, and through cutting-edge research convinced others to do the same. For decades, millions of ICU survivors left the hospital with disabling symptoms including newly acquired dementia, depression, PTSD, and nerve damage, all now recognized as Post Intensive Care Syndrome, or PICS (a severe subset of Long Covid symptoms). Dr. Ely's groundbreaking investigations advanced the understanding of PICS and introduced crucial changes that reshaped intensive care: minimizing sedation,

maximizing mobility, attending to the family, and providing supportive aftercare. Dr. Ely shows that this new way—technology plus touch—is the future of healthcare, and is a proven path toward reclaiming life. Full of wisdom and heart, Every Deep-Drawn Breath is an essential resource for anyone who will be affected by critical illness, which is all of us.

The first book in the world, which talks about de-hypnosis and explains spiritual dimensions of hypnosis in an eastern way. Hypnosis is spiritual in the sense that in hypnosis, illusion is created to destroy illusion. It applies the principle of similia similibus curentur: let like be cured by like. In this book, there are two parts. The first part of this book will wake you up from maya and de-hypnotize you by creating awareness using traditional gyana. The second part of the book teaches some time-tested, verified, and effective modern hypnosis methods to de-hypnotize and integrate you. It is said, “to take out a nail, use another nail.” Hypnosis uses illusion to remove illusions and delusions of your perceptions about yourself, your guilt, fears, phobias, anxiety, and hatred, etc. Sounds strange though, when I tell you to use hypnosis for de-hypnosis. However, that is the quickest way to get out of mental illusions and delusions.

A panoramic vision of cosmic spiritual ecology achieved through an unusual balance between practical observation, vigorous knowledge of literature and science, and inspired personal insight. The author relates her practice and understanding of the Gurdjieff teaching to international legacies of literature and science, and to the immediate sensory details of her own life.

An overview of Daoist texts on passive meditation from the Latter Han through Tang periods. Stephen Eskildsen offers an overview of Daoist religious texts from the Latter Han (25–220) through Tang (618–907) periods, exploring passive meditation methods and their anticipated effects. These methods entailed observing the processes that unfold spontaneously within mind and body, rather than actively manipulating them by means common in medieval Daoist religion such as visualization, invocations, and the swallowing of breath or saliva. Through the resulting deep serenity, it was claimed, one could attain profound insights, experience visions, feel surges of vital force, overcome thirst and hunger, be cured of ailments, ascend the heavens, and gain eternal life. While the texts discussed follow the legacy of Warring States period Daoism such as the Laozi to a significant degree, they also draw upon medieval immortality methods and Buddhism. An understanding of the passive meditation literature provides important insights into the subsequent development of Neidan, or Internal Alchemy, meditation that emerged from the Song period onward.

of challenges and not to submit to the ways of the world. In the book I address the current state of affairs, where people have submitted to the demands and expectations of others to shape the way they live, most often against the virtues taught by Jesus Christ and how it parallels with the struggles in the lives of the men and women of our Biblical times. I address some of the issues we face on a daily basis such as; daily pressures, premarital sex, and the various life roles that we must play. In the latter part of the manuscript I share personal testimonies about my life struggles because of the workings of the devil and how I found peace and joy through the salvation of Jesus Christ. And I close with exhorting everyone to check their own lives and live up to the ways of righteousness.

In every person's life, there comes a moment in time when circumstances or events require decisions and responses that greatly determine the future. This book has no design to be another volume on leadership techniques. Rather, it is a candid exploration of those unexpected turns birthed out of the experience of being confronted with a reversal of circumstances in the life of an individual. Frankly, it is a study about the drama of life. The intention of the author is to give a sincere and straightforward examination of why turnabouts often get high-jacked and fail to live up to people's expectations. Even more, individuals will find a plea for courage and faith when things do not occur as they once envisioned they would. Consequently, it is a clarion call for courage to go further than some would desire, but also a caution to impatient leaders to be watchful of their own intentions to push a change further than would be wise. In the end, some leaders must be willing to consider a more contemplative life built on valuing people above their own ideological mindset. Dr. Wallace R. This book is dedicated to the people from whom I have learned the secrets about life and death: especially Michel Boje, my patient for several years who taught me about the mystery of death (he had hepatitis C, was addicted to narcotics but was able to fulfill his dreams), my beloved father Nikolaj Kozevnikov, former chief engineer for hydropower station construction in Russia, who taught me (he is in his 80s) the art of resolving any extreme situations, my dear lovely Danish husband professor Leif Bjørnø who taught me (and he is still teaching) the art of adaptation of any life challenges and many-many others who were my daily teachers in the school of life and death. Thanks to all of them this book was created.

This open access book studies breath and breathing in literature and culture and provides crucial insights into the history of medicine, health and the emotions, the foundations of beliefs concerning body, spirit and world, the connections between breath and creativity and the phenomenology of breath and breathlessness. Contributions span the classical, medieval, early modern, Romantic, Victorian, modern and contemporary periods, drawing on medical writings, philosophy, theology and the visual arts as well as on literary, historical and cultural studies. The collection illustrates the complex significance and symbolic power of breath and breathlessness across time: breath is written deeply into ideas of nature, spirituality, emotion, creativity and being, and is inextricable from notions of consciousness, spirit, inspiration, voice, feeling, freedom and movement. The volume also demonstrates the long-standing connections between breath and place, politics and aesthetics, illuminating both contrasts and continuities. Attempts to think anew about philosophical questions from the perspective of breath and breathing. As a physiological or biological matter, breath is mostly considered to be mechanical and thoughtless. By expanding on the insights of many religions and therapeutic practices, which emphasize the cultivation of breath, the contributors argue that breath should be understood as fundamentally and comprehensively intertwined with human life and experience. Various dimensions of the respiratory world are referred to as "atmospheres" that encircle and connect human existence, coexistence, and the world. Drawing from a number of traditions of

breathing, including from Indian and East Asian religion and philosophy, the book considers breath in relation to ontological, hermeneutical, phenomenological, ethical, and aesthetic concerns in philosophy. The wide-ranging topics include poetry, theater, environmental issues and health, feminism, and media studies. "Atmospheres of Breathing, the first collection of its kind, explores an emerging 'respiratory philosophy' of great consequence for philosophy and other fields. Its rich and diverse essays, many written by the pioneers of this radically new direction, show the deep historical and intercultural roots of such a philosophy, ranging from treatments of forerunners like Zhuangzi and Heraclitus to contemporary theorists of breathing such as Abram and Kleinberg-Levin. Presented here is the vision of innovative ways in which philosophy, on its own or inspired by spiritual practices, can bring breathing into the center of its concern. This is a landmark book that scintillates with brilliant and original insights. If taken as seriously as it deserves, this book has the potential to revolutionize contemporary and future thought." — Edward S. Casey, author of *The World at a Glance* and *The World on Edge*
"Air, the misunderstood element, finds ways and means of advancing to places where no one reckons with its presence; and, more significantly, it makes space on its own strength for strange places where there were previously none." — Peter Sloterdijk
