The Sunbeam Exploder creates a combustible delivery system out of sunlight, while the Red Hot Memory experiment shows you how to store data as heat. Want to learn to tell time using a knife and some butter? There's a whole section devoted to exotic clocks and oscillators that teaches you how. After at least 20 years of my research in the Bible, beginning with the mission of trying to prove that the Bible is the Word of God, I have come to the conclusion that the Bible was not written perfectly, therefore concluding that maybe we shouldn't be so lazy, as to call the entire Bible The Word of God anymore. Instead, maybe scholars should do as I have done, and make it our mission to find the perfect word in the Bible. If some of us work together in this direction, we can at the very least salvage the Word of God in the Bible, before the antichristian world provides enough information to try to discredit the Bible altogether. In addition, this book provides an inside window into some real spiritual warfare taking place right now. The Book of Knowledge of Good and Evil also provides possible end results depending on which side wins these specific battles. If you worship God only this book will be of comfort to you, but if you not only worship God, but the apostles and prophets also, putting them on the same pedestal as God Almighty, you may wind up disliking me and this book. One of the main reasons why I wrote this book is to take the churches out of their comfort zone. My hope is many Christians all over the world will dig in their Bible and try to prove me wrong. Who knows, maybe we will all learn something new as a result. As for the ministers, preachers, pastors and priest who think it is their job to make themselves rich by taking their congregations hard earned money, who are too lazy to open the Bible to even challenge me. When you tell your congregation that I'm the devil or a servant of the devil, then may the authority of this book turn your church upside down and lay it to waste! Features lists that cover a broad range of subjects including bizarre births, weird jobs, crazy diets, strange phobias, historical oddities, religious scandals, ridiculous criminal acts, and weird superstitions.

"Nostradamus: the Healer-the Prophet-the Man" "Cleopatra: the women behind the legend" "Who actually controls humanity?" "If Nikola Tesla was so important, why is he so forgotten?" "What is the purpose of life?" But who has the answers? Without a doubt, author Roman HARBURA believes, we hold the answers ... within our imagination, the greatest gift of all. The universe, he explains, is filled with life, and human beings are not alone. Earth, our home, is simply one planet in a sky filled with thousands of universes, each with the potential to harbor life beyond our human ability to understand. If we can simply come to accept and embrace the fact that we are just one small part of the inconceivably vast miracle of life across the stars, our own world would change. Imagination, in HARBURA's experience, is our greatest gift. In his The Book of Knowledge: I Am Alien, he shares an eclectic and thought-provoking array of ideas to inspire, engage, and capture your imagination.
