Evaluation is central to literary studies and has led to an impressive list of publications on the status and history of the canon. Yet it is remarkable how little attention has been given to the role of textual properties in evaluative processes. Most of the chapters in *The Quality of Literature* redress this issue by dealing with texts or genres ranging from classical antiquity, via Renaissance to twentieth century. They provide a rich textual and historical panorama of how critical debate over literary quality has influenced our modes of thinking and feeling about literature, and how they continue to shape the current literary landscape. Four theoretical chapters reflect on the general state of literary evaluation while the introduction weaves the different threads together aiming at further conceptual clarification. This book thus contributes to a deeper understanding of the problems that are at the heart of past and present debates over literary quality.

This volume seeks to guide students in religious or literary studies or other interested readers toward understanding and appreciation of biblical prophetic poetry. Each of the three sections of the book includes a chapter examining one of the literary features with brief examples from prophetic texts, followed by another chapter of applied criticism of a full prophetic poem (Joel 2 on parallelism, Jeremiah 4 on voice, and Isaiah 24 on design). Among the distinct features of the book are diagrams of parallel lines, promoting two-dimensional, “binocular” reading of the poems. Of all the literature of the Bible, prophetic poetry has probably been least accessible to the modern reader.

Language is dense, images are obscure, and logical development of ideas seems almost inaccessible. Reading Prophetic Poetry seeks to help readers appreciate the luminous beauty of the language and the austere power and surprising relevance of the ideas in these relatively obscure biblical texts. It introduces an accessible approach to prophetic poetry which invites readers to turn to the biblical texts on their own with new ideas for appreciating the riches of these ancient poems.

This book gathers a set of reflections on the gift of beauty and the passion of being. There is something surprising about beauty that we receive and that moves the passion

of being in us. The book takes issue with an ambiguous attitude to beauty among some who proclaim their advanced aesthetic authenticity. Beauty seems bland and lacks the more visceral thrill of the ugly, indeed the excremental. We crave what disrupts and provokes us, not what gives delight or even consoles. By contrast, attention is given to how beauty arouses enigmatic joy in us, and we enjoy an elemental rapport with it as other. Surprised by beauty, our breath is taken away, but we are more truly there with the beautiful when we are taken outside of ourselves. We are first receivers of the gift of surprise and only then perceivers and conceivers. My attention to the passion of being stresses a patience, a receptivity to what is other. What happens is not first our construction. There is something given, something awakening, something delighting, something energizing, something of invitation to transcendence. The theme is amplified in diverse reflections: on life and its transient beauty; on soul music and its relation to self; on the shine on things given in creation; on beauty and Schopenhauer's dark origin; on creativity and the dynamis in Paul Weiss's creative ventures; on redemption in Romanticism in the thought of Stanley Cavell; on theater as a between or metaxu; on redeeming laughter and its connection with the passion of being.

"The Torn Book: UnReading William Blake's Marginalia argues for the connection between British poet and painter William Blake's marginalia (the annotations he made in the volumes he owned and borrowed) and the role that often multivalent symbols like pens, writers, readers, and books play throughout his art." "The Torn Book pays particular attention to original Blake items, including the various annotated volumes housed at the Huntington Library, Houghton Library, Cambridge's University Library and Wren Library, Dr. Williams's Library, and the British Library, among others."--BOOK JACKET.

In this book, writers from a range of academic disciplines examine a wide variety of text and discourse: from everyday conversation to the literary canon.

Blood will flow. Fire will fall. Days will end. The end of the world started in Glasgow, with a kiss. Two people - two creatures - fated to be eternal enemies downed their blazing spears and loved. To do so they broke rules hardwired into the DNA of the universe. The universe noticed. The universe broke. Now Heaven and Hell are hunting them. Nobody on Earth can help them. Worst of all, the fabric of reality is unravelling around them, the Apocalypse has been brought forward a millennium, and it might all be their fault. On cold streets the last tattered remnants of humanity must draw faith in a world that has no more use for them. As the masses pray and crawl on bloody knees, the few must restore the fearful symmetry between good and evil - for the sake of all. "Imagine a world where fire rains from the sky at the same time as pure white snow. A world where the dead walk the Earth. Faced with that, logic goes out the window. The people in this story are raw and real. Broken and sullied. Terrified." - Jessica Nottingham, Hopelessly Devoted Bibliophile

"In this unparalleled study of the forms of Hebrew poetry, preeminent authority Benjamin Harshav examines Hebrew verse during three millennia of changing historical and cultural contexts. He takes us around the world of the Jewish diaspora, comparing the changes in Hebrew verse as it came into contact with the Canaanite, Greek, Arabic, Italian, German, Russian, Yiddish, and English poetic forms. Harshav explores the types and constraints of free rhythms, the meanings of sound patterns, the historical and linguistic frameworks that produced the first accentual iambs in English, German, Russian, and Hebrew, and the first discovery of these iambs in a Yiddish romance written in Venice in 1508/09. In each chapter, the author presents an innovative analytical theory on a particular poetic domain, drawing on his close study of thousands of Hebrew poems"--

Intended for general readers and for students and scholars of poetry, *Poetry as Survival* is a complex and lucid analysis of the powerful role poetry can play in confronting, surviving, and transcending pain and suffering. Gregory Orr draws from a generous array of sources. He weaves discussions of work by Keats, Dickinson, and Whitman with quotes from three-thousand-year-old Egyptian poems, Inuit songs, and Japanese love poems to show that writing personal lyric has helped poets throughout history to

process emotional and experiential turmoil, from individual stress to collective grief. More specifically, he considers how the acts of writing, reading, and listening to lyric bring ordering powers to the chaos that surrounds us. Moving into more contemporary work, Orr looks at the poetry of Sylvia Plath, Stanley Kunitz, and Theodore Roethke, poets who relied on their own work to get through painful psychological experiences. As a poet who has experienced considerable trauma--especially as a child--Orr refers to the damaging experiences of his past and to the role poetry played in his ability to recover and survive. His personal narrative makes all the more poignant and vivid Orr's claims for lyric poetry's power as a tool for healing. Poetry as Survival is a memorable and inspiring introduction to lyric poetry's capacity to help us find safety and comfort in a threatening world.

media: collaboration and participation. Not only does Blake cite and adapt the work of earlier authors and visual artists, but contemporary authors, musicians, and filmmakers feel compelled to use Blake in their own creative acts. This book identifies and examines Blake's work as a social and participatory network, a phenomenon described as zoamorphosis, which encourages — even demands — that others take up Blake's creative mission. The authors reexamine the history of the digital humanities in relation to the study and dissemination of Blake's work: from alternatives to traditional forms of archiving embodied by Blake's citation on Twitter and Blakean remixes on YouTube, smartmobs using Blake's name as an inspiration to protest the 2004 Republican National Convention, and students crowdsourcing reading and instruction in digital classrooms to better understand and participate in Blake's world. The book also includes a consideration of Blakean motifs that have created artistic networks in music, literature, and film in the twentieth and the twenty-first centuries, showing how Blake is an ideal exemplar for understanding creativity in the digital age.

Because of its complexity and profundity, the Book of Job has been many things to many people and few texts can have been more written about. I will argue in this study that it is, first and foremost, about creation and the theology of creation. If "beginning" and "ending" are creation terms, "birth" and "death" are their

equivalents for the animate parts of creation. What happens between those two events in time, which is well-being and survival to an expected time, seen as order in creation for its animate constituents, or their opposites which is ill-being and untimely death, seen as disorder in creation, must also belong to creation theology as must measures to be taken to secure the former and avoid the latter. The diversity of views on the subject of order and disorder in creation is explored through the medium of argumentative speeches each of which has persuasion as its goal. Two striking features of the arguments are, firstly, the passion with which they are expressed and, secondly, challenges to their credibility. I suggest that the key to the interpretation of Job as a work about order and disorder in creation is a rhetorical criticism based on precepts which hold that persuasion is achieved through argument, emotion and the credibility of the speaker. Aristotle's Rhetoric meets those requirements. Since persuasion is not achieved in a void, I look at the Mesopotamian literary context of Job. I look, first, at texts dealing with order and disorder in creation, second, at texts concerned with human suffering, and thirdly, at a small group of texts comprising a literary genre, the dispute poem. I contend that the Joban poet modelled his work on the dispute poem, the better to set out the different strands of thinking on order and disorder in creation. Children of horror, we are passing haunted Wallace Woods. Hear the howl of something in the fog, the crash of something large and primal through palmetto, briar thicket, and dense brush in the middle of Louisiana swampland. As fogged breathed rises with the mist, between freezing ice and rolling fog we see a greyish silhouette shrouded in moonlight. As you smell the scent of dog or something canine, you can see the long, ghastly claws from the shadows hunting you. You run to the safety of black water and mud, but find no escape and no reprieve from the beasts. Cold winds screech through branches and a roaring howl in the water with you is the last sound you hear. From the heart of howling terror and pad of clawed feet we introduce you to the shadowy world of Max Fauchaux in "Of Wolf & Man". William Blake captured his horrifying world so poignantly in the verses below. Tyger, Tyger burning bright, In the forests of the night: What immortal hand or eye, Dare frame thy fearful symmetry? -William
