SIMPLE SIGHT WORDS Form simple sight words Visual and physical involvement teaches children to recognize words on sight Form the foundation for sentences * LEVEL 3: SIMPLE

SENTENCES Application of handwriting and sight words to form sentences Further

strengthens skills through practice and repetition Practice own name, age and hobbies The variety of exercises in this handwriting practice book for kids are guaranteed to be helpful in

building hand-eye coordination, dexterity and muscle memory and are great for kids of all ages from nursery, preschool, pre k, kindergarten and kids ages 3-5 and 5 -6. Handwriting has its

place even in the midst of technology. A case study published in the US National Library of Medicine National Institute of Health states that letter tracing and handwriting has significant

benefits over typing on electronic devices. The study tested the effect on brain engagement with traditional handwriting and typing on a tablet. The conclusion was that tracing and

handwriting activates and engages both the left side of the brain which is responsible for language and logic and the motor cortex. Stimulation of these parts of the brain can provide

benefits for the development of your child's brain and scholastic performance in the future.
