"This course offers current and prospective teachers of English a comprehensive treatment of pronunciation pedagogy, drawing on both current theory and practice. The text provides: - an overview of teaching issues from the perspective of different methodologies and second language acquisition research - innovative teaching techniques - a thorough grounding in the sound system of North American English - insight into how this sound system intersects with spelling, morphology, listening, and discourse - diagnostic tools and assessment measures - suggestions for syllabus design. Discussion questions and exercises encourage teachers to draw on their personal language learning/teaching experience as they assimilate the contents of each chapter. A training cassette offers practice in assessing learners' pronunciation"--Publishers's website.

"Counter Responsibility for planning language teaching programs now carries with it a strong element of accountability. Evaluation of the whole process of course design, development, and implementation is therefore a necessary area of activity for course designers, language planners, and researchers. This book

brings together accounts of recent work in this increasingly important field and will be a valuable resource both for those already engaged in evaluation and for those in training. Part One presents a review of the literature, covering past developments in the wider field of educational evaluation, as well as specifically in second language education. Part Two contains a series of eight original case-studies, written by scholars involved in evaluations in widely divergent settings. The focus in each case is on how the evaluator addresses the difficulties central to each study, and the findings are also included. The final Part Three provides practical guidance for evaluators, offering suggestions about how to set up and carry out evaluations in any given setting."--Publisher's website.

This best-selling text pioneered the comparison of qualitative, quantitative, and mixed methods research design. For all three approaches, John W. Creswell and new co-author J. David Creswell include a preliminary consideration of philosophical assumptions, key elements of the research process, a review of the literature, an assessment of the use of theory in research applications, and reflections about the importance of writing and ethics in scholarly inquiry. The Fifth Edition includes more coverage of: epistemological and ontological positioning in relation to the research question and chosen methodology; case study, PAR, visual and online methods in qualitative research; qualitative and

quantitative data analysis software; and in quantitative methods more on power analysis to determine sample size, and more coverage of experimental and survey designs; and updated with the latest thinking and research in mixed methods. SHARE this Comparison of Research Approaches poster with your students to help them navigate the distinction between the three approaches to research.

A raw and powerful memoir of Jaycee Lee Dugard's own story of being kidnapped as an 11-year-old and held captive for over 18 years On 10 June 1991, eleven-year-old Jaycee Dugard was abducted from a school bus stop within sight of her home in Tahoe, California. It was the last her family and friends saw of her for over eighteen years. On 26 August 2009, Dugard, her daughters, and Phillip Craig Garrido appeared in the office of her kidnapper's parole officer in California. Their unusual behaviour sparked an investigation that led to the positive identification of Jaycee Lee Dugard, living in a tent behind Garrido's home. During her time in captivity, at the age of fourteen and seventeen, she gave birth to two daughters, both fathered by Garrido. Dugard's memoir is written by the 30-year-old herself and covers the period from the time of her abduction in 1991 up until the present. In her stark, utterly honest and unflinching narrative, Jaycee opens up about what she experienced, including how she feels now, a

year after being found. Garrido and his wife Nancy have since pleaded guilty to their crimes.

Instructional Design for Teachers, Second Edition focuses on the instructional design (ID) process specifically for K-12 teachers. The first edition introduced a new, common-sense model of instructional design to take K-12 teachers through the ID process step by step, with a special emphasis on preparing, motivating, and encouraging new and ongoing use of ID principles. This second edition includes new material on design in gaming, cybercharters, online classrooms, and flipped classrooms, as well as special considerations for the Common Core. Each chapter contains framing questions, common errors, easy-to-use rules of thumb, clearly stated outcomes, and examples showing ID in action. The basic model and its application within constructivism and user-design will help teachers adapt from a behavioral approach to a more open, student-centered design approach. Combining basics with strategies to implement this model in the most advanced instructional approaches, this book empowers teachers and learners to use good instructional design with the most recent research-based approaches to learning. Instructional Design for Teachers shows how ID principles can impact instructional moments in positive and practical ways. The book can be used for basic ID courses and introductory curriculum courses, and is accessible to in-service as well as pre-service teachers.

Educational research is one most important means of empowering people with the

knowledge, skills and self-confidence necessary to participate fully in the development process. It is the cornerstone of empowerment and social development because it enables people to respond to opportunities, to challenge their traditional roles and to change their lives. The present book has been designed to facilitate both the students as researchers at the university level and teachers as practitioners at the school level. It attempts to document the research outputs on school education and to examine how could these be best used as an instrument for empowering people. It further documents and reviews the trend of research studies with a view to examine where we stand now, what are the gaps and weaknesses in the researches and on what areas could these be best carried out in future.

"A mystery that touches the heart, with characters caught in a world that's harsh but trembles with tender emotions. A beautiful story." JAMES NAUGHTIE, BBC Radio 4

When the door opened and he came out, there came with him the stench of a dead thing, the sweet, sulphurous, warm, rotten chicken smell that only ever comes from unburied flesh. A dead body is found in a locked house. It has been stabbed in a frenzy, the hands and feet bound, the skull smashed, false teeth knocked from its jaws. Blood pools around the corpse and drips from the staircase. Yet nothing is missing: money and valuables remain untouched. Who could have murdered an old woman in such a horrifying way? And why? This is the mystery facing Sergeant John Fraser and Detective Lieutenant Trench when wealthy spinster Miss Jean Milne is murdered in the

quiet seaside town of Broughty Ferry. Yet, despite an abundance of clues and apparent witnesses, the investigation proves troublesome: suspects are elusive and Miss Milne herself is found to be far from a model of propriety. And when sensational headlines put pressure on the police force to find a culprit, Fraser and Trench must work fast to prevent the wrong man from going to the gallows. But will they ever unravel the secret life and curious death of Miss Jean Milne? REVIEWS "Nicoll takes a true story and builds it into a twisting piece of prose with an unexpected shift towards the end." DAILY EXPRESS (****, Summer's Most Addictive Crime Fiction) "Beautifully Done." THE SUN "The sense of setting and era are spot on, and the dusky streets of Scotland are suitably spooky." HEAT MAGAZINE "A superb read, the sort of book that keeps you compulsively turning pages." UNDISCOVERED SCOTLAND "Nicoll offers a plausible, if shocking, solution to the crime at the end...in the style of the best Agatha Christie. The writing of a Christie-esque novel in the 21st century, however, requires a fresh and lively narrative, coupled with a wry and critical humour, to make it feel compellingly modern enough. Nicoll achieves that and more by bringing us, sometimes uncomfortably so, closer to our sins of the past." THE NATIONAL "An intelligent crime novel with secrets, passion and great characters - just a great murder mystery." PORTOBELLO BOOK BLOG "A triumph of tone, very moving, completely convincing." ANDREW MARR on The Good Mayor "An exuberant, whirlwind read, with a glint of steel beneath the frothy plot." THE GUARDIAN on The Good Mayor
