We are fascinated by text and we are fascinated by reading. Is this because we are in a time of textual change? Given that young people always seem to be in the vanguard of technological change, questions about what and how they read are the subject of intense debate. *Children as Readers in Children's Literature* explores these questions by looking at the literature that is written for children and young people to see what it tells us about them as readers. The contributors to this book are a group of distinguished children's literature scholars, literacy and media specialists who contemplate the multiple images of children as readers and how they reflect the power and purpose of texts and literacy.

Contributors to this wide-ranging text consider: How books shape the readers we become Cognitive and affective responses to representation of books and reading The relationship between love-stories and reading as a cultural activity Reading as 'Protection and Enlightenment' Picturebooks as stage sets for acts of reading Readers' perceptions of a writer This portrayal of books and reading also reveals adults' beliefs about childhood and literacy and how they are changing. It is a theme of crucial significance in the shaping of future generations of readers given these beliefs influence not only ideas about the teaching of literature but also about the role of digital technologies. This text is a must-read for any individual interested in the importance of keeping literature alive through reading.

In *Reading in the Wild*, reading expert Donalyn Miller continues the conversation that began in her bestselling book, *The Book Whisperer*. While *The Book Whisperer* revealed the secrets of getting students to love reading, *Reading in the Wild*, written with reading teacher Susan Kelley, describes how to truly instill lifelong "wild" reading habits in our students. Based, in part, on survey responses from adult readers as well as students, *Reading in the Wild* offers solid advice and strategies on how to develop, encourage, and assess five key reading habits that cultivate a lifelong love of reading. Also included are strategies, lesson plans, management tools, and comprehensive lists of recommended books.

Copublished with Editorial Projects in Education, publisher of *Education Week* and *Teacher* magazine, *Reading in the Wild* is packed with ideas for helping students build capacity for a lifetime of "wild" reading. "When the thrill of choice reading starts to fade, it's time to grab *Reading in the Wild*. This treasure trove of resources and management techniques will enhance and improve existing classroom systems and structures."

—Cris Tovani, secondary teacher, Cherry Creek School District, Colorado, consultant, and author of *Do I Really Have to Teach Reading?* "With *Reading in the Wild*, Donalyn Miller gives educators another important book. She reminds us that creating lifelong readers goes far

beyond the first step of putting good books into kids' hands." —Franki Sibberson, third-grade teacher, Dublin City Schools, Dublin, Ohio, and author of *Beyond Leveled Books* "Reading in the Wild, along with the now legendary *The Book Whisperer*, constitutes the complete guide to creating a stimulating literature program that also gets students excited about pleasure reading, the kind of reading that best prepares students for understanding demanding academic texts. In other words, Donalyn Miller has solved one of the central problems in language education." —Stephen Krashen, professor emeritus, University of Southern California

Young adults are actively looking for anything that connects them with the changes happening in their lives, and the books discussed throughout *Literature for Young Adults* have the potential to make that connection and motivate them to read. It explores a great variety of works, genres, and formats, but it places special emphasis on contemporary works whose nontraditional themes, protagonists, and literary conventions make them well suited to young adult readers. It also looks at the ways in which contemporary readers access and share the works they're reading, and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs. In addition to traditional genre chapters, *Literature for Young Adults* includes chapters on literary nonfiction; poetry, short stories, and drama; cover art, picture books, illustrated literature, and graphic novels; and film. It recognizes that, while films can be used to complement print literature, they are also a literacy

The book's discussion of literary language--including traditional elements as well as metafictional terms--enables readers to share in a literary conversation with their students (and others) when communicating about books. It will help readers teach young adults the language they need to articulate their responses to the books they are reading.

The latest teaching standards demand that all teachers 'take responsibility for promoting high standards of literacy and correct use of standard English, whatever the teacher's specialism'. That's no bad thing, but it leaves some of us feeling under-trained and over-exposed. Enter the Literacy Across the Curriculum Pocketbook. The book is based on four principles: literacy is important for all learning; we owe it to our pupils to help them develop their literacy; developing strategies for LAC enhances teaching and learning across the school; teachers do not have to be literacy experts to promote LAC. In a series of punchy chapters, (Speaking for Success, Write Better! Vamp up your Vocabulary, Splendid Spelling, Raring to Read) Caroline Bentley-Davies presents practical ideas and simple strategies for incorporating literacy skills into your own lessons. All this plus some really helpful advice on note-making and a self-audit LAC checklist."Literacy Across

Imagine if going to school meant more than preparing kids for a test, teaching a canned curriculum, and training students for their future as workers. What if school were also about cultivating students to be caring, community-involved citizens and critical, creative thinkers who love to read? In *Caring Hearts & Critical Minds*, teacher-author Steven Wolk shows teachers how to help students become better readers as well as better people. "I want [my students] to be thinkers and have rich conversations regarding critical issues in the text and be able to formulate opinions regarding these issues," says Leslie Rector, a sixth-grade teacher who collaborated with Wolk on some of the units featured in this book. Wolk demonstrates how to integrate inquiry learning, exciting and contemporary literature, and teaching for social responsibility across the curriculum. He takes teachers step-by-step through the process of designing an inquiry-based literature unit and then provides five full units used in real middle-grade classrooms. Featuring a remarkable range of recommended resources and hundreds of novels from across the literary
