A true crime short, plus 17 additional true crime stories. It was the day before Easter, 2013. A man out walking his dog on a rural road near Peterborough, United Kingdom found a dead body lying in a ditch. Before their bloody rampage was brought to an end, they would attempt to kill two additional innocent people who likely never even saw them coming. There are other fascinating stories in this volume as well: serial killer Andrew Urdiales, Jodi Arias and the Murder of Travis Alexander, the Random Serial Stabber case, a killer who wanted to be like "Dexter," a "Blood Oath" murder case out of Washington State, and several others chosen especially for true crime readers. *12 True Crime Stories of Murder & Mayhem* Seventh Book of the True Crime Case Histories Series (2021) If you're familiar with the previous books in the True Crime Case Histories series, you already know that I start each book with a brief warning. Real true crime is not for everyone. The stories in this book represent humanity at its absolute worst. Pure evil.

Television crime shows and news articles often skip the gruesome parts of true crime stories. The real details are just too grisly for the average viewer or reader. In my books, however, I do my best to include the details, regardless of how unsettling they may be. Each story requires hours of research. I search through old newspaper articles, court documents, police reports, autopsy results, and first-hand descriptions. Some of the specifics can be disconcerting. I choose to include the details not to shock, but to give the reader a deeper view into the mind of the killer. Although it's unlikely any of us will understand the motives of a diabolical monster, the level of depravity will keep you turning pages. That being said, if you are overly squeamish about the details of true crime, this book may not be for you. If you're okay with it... then let's begin. Volume 7 features: Longer stories, more photos, a bonus chapter, and an online appendix with additional photos, videos, and documents. Volume 7 of True Crime Case Histories features twelve new stories from the past fifty years. A sampling of the stories include: You'll read about a law enforcement officer that took advantage of the trust associated with his uniform. His brutal reign of terror lasted eight years. It took the bravery of two young women that escaped his grasp to bring him down. There's the story of the recent law school graduate with a crush on his neighbor. Rather than asking her out on a date, he stalked and spied on his classmate, eventually taking her life. There's also the heartbreaking story of a single mom, drowning in debt, that did the unthinkable for insurance money. Seven of the stories in this book feature women killers, two of which took the time to meticulously dismember their victims-a task that can take great strength. Another woman manipulated her two teenage boys into killing for her. Yet another woman staged an elaborate hoax to get rid of her loving husband rather than go through the agony of a messy divorce. You'll also read of a sadistic group of up to twelve killers that took joy in abducting and torturing young men in Australia. Sadly, only one of the mysterious group has been brought to justice. Plus many more disturbing stories. The twelve stories in this volume are shocking and disturbing, but they're true. These things really happen in the world. We may never understand why killers do what they do, but at least we can be better informed. You may have heard of a few of the stories in this volume, but there are several I'm almost certain you haven't. Scroll up to get your copy *True Crime Case Histories Volume 8* is due out December 2021 and will feature 12 more short stories of; True Crime, Murder & Mayhem, Serial Killer Biographies, and True Murder Case Files.

The result of 15 years of research and exclusive information, this is the first book of investigative journalism to tell the complete story of Littleton, Colorado's 1999 mass shooting,

Having this good opinion of himself, he progresses from crime to crime, until there comes a moment when he finds no other escape from the consequences of his meanness and folly than the destruction of a human life which, as he believes, stands between himself and freedom. And so confident is he in his own genius for evasion that he will plan the most diabolical of crimes, perfectly satisfied in his mind that the success which has attended the commission of minor offences will not desert his efforts to evade the penalty of his supreme villainy."

From the creator of Inner Darkness Podcast comes a true treat for any True Crime lover. In this book you'll find a collection of True Crime stories featured on the Podcast

In the 1880s, a serial killer terrorized Austin, Texas, setting a pattern for the many who followed him. In the 1890s, an Atlanta boardinghouse resident shot several of his fellow boarders. These and other true crime stories, spanning from Texas to West Virginia, are interesting and historically significant as opposed to depressing or lurid.

Mike Browne, host of the popular Canadian podcast Dark Poutine, chronicles some of his all-time favourite stories of true crime and dark history from Canada and around the world. Divided into four sections —Murders with a Twist, Perpetual Puzzles, The Madness of Crowds and Notable Disasters — all the stories in this collection (except two) are brand new and haven't been covered by the podcast. In Murders with a Twist, Browne recounts seven true crime stories with atypical elements, including weird motives, unusual perpetrators and bizarre murder weapons. In one case, we meet a man who is willing to kill to possess a human voice. In another, two women play a deadly game to prove their love to each other. Perpetual Puzzles covers six stories that remain unresolved and will leave you with more questions than answers. They include the archaeological find of the century, which turns out to be something far more sinister, as well as the discovery of a dead man on the beach with a mysterious clue in his pocket. The Madness of Crowds reveals that murder and mayhem are sometimes a group effort. We meet two young Canadians who leave home one summer to find work and instead end up on a murder spree, and a bizarre California cult that asks its members to topple the Mormon church. The book concludes with Notable Disasters, which describes some of the most tragic and deadly events in history, including the deadly tsunami in the Indian Ocean on December 26, 2004, as well as the devastating Grenfell Tower fire in London in June 2017. The book includes a foreword by Alan R. Warren, bestselling true crime author and host of the House of Mystery Radio Show. Murder, terrorism and mass killings, were prominent in the news for 2018, and in this True Crime Anthology you will find the cases that made international headlines from January to the end of December. An entire year has been included in this book, and as we go into 2019, it's important to remember not only the shocking events that took place, but also to acknowledge the many that lost their lives at the hands of others this year. The types of cases included are: Serial killers Family murders Mass murders School shootings Major hacking incidents Terrorist Acts Cold Cases There have been many advances in technology that has led to the uncovering on many suspects in cold cases, including the identity of the Golden State Killer, a secret that had remained hidden for decades. A number of cold case murders were solved this year, bringing an end to the torture the affected families and the investigators had endured for so many years. Tragically, school shootings were still prevalent, and mass shootings seem to be on the rise. Terrorism struck many corners of the world, in a variety of ways, but results were swifter in identifying perpetrators and taking action. Some of the featured events in this anthology include: Marshall County High School Shooting The Turpin Family Larry Nassar and Harvey Weinstein Coincheck Hacking Bruce McArthur - Serial Killer Atlanta Cyberattack International Spy Poisonings Scottsdale Spree Killings Miles Family Murders Murder of XXXTentacion Pittsburgh Synagogue Massacre Mail Bombing Plus many, many more. If you are a lover of true crime, and want an anthology to add to your collection, this is the book for you.

12 True Crime Stories of Murder & Mayhem Third Book of the True Crime Case Histories Series (2019) As with the two prior volumes of True Crime Case Histories, I want to start with a quick word of warning. Most news articles and television true crime shows skim over the sticky details of truly gruesome crimes. In my books I don't gloss over the facts, regardless of how horrible they may be. I try to give my readers a clear and accurate description on just how demented the killers really were. I do my best not to leave anything out. The stories included in these books are not for the squeamish. Volume 3 features: longer stories, photos, two bonus chapters and an online appendix with additional photos, videos, and documents. A sampling of the stories include: The Canal Killer - A violent psychopath cuts off the head, hands, and feet of his girlfriends and dumps them in the canals of London and Rotterdam. The Head in the Bucket - A drug kingpin chops off the head of one of his dealers and carries it around in a Home Depot bucket. Captain Cash - Another drug dealer butchers an entire family so he can take over a man's fruit shipping business and transform it into a drug shipping business. The Coffee Killer - A young woman, jealous of her rich socialite friend, poisons her by lacing her coffee with cyanide in a public coffee shop. The Arizona Torso Killer - A petite trophy-wife shoots her husband, freezes his body, hacks him up with a jigsaw and dumps his torso in a dumpster behind a grocery store. The Oxford Murder - A young college student strangles his girlfriend and crams her body into an eight-inch crawlspace beneath the stairs. Plus six more disturbing true crime stories. The twelve true crime stories included in this collection are dark and creepy and will leave you with

a new understanding of just how fragile the human mind can be. If there's any common theme between these cases, it would be that many of them happened near places I've lived throughout my life. Three stories took place in the London area. One of which happened just a five-minute walk from my home. Two other stories took place in Scottsdale, Arizona where I've lived the majority of my life. Another took place in Maui, Hawaii while I was living there. And finally, another took place in Oxford, UK very close to where I've been working over the past year. The stories in this volume took place all over the world, and range from the 1940s to 2018. Scroll up to get your copy

True Murder Mysteries, Missing Persons Cases And Cannibal Killers True Crime Murder mysteries, missing persons cases and cannibal killers are all things that will make you think of some of the most interesting true crime cases in our history. The cases I am going to present to you today in this book are not so much about divinity or superstition as they are about simply murder and butchery. They are the stories of some of the strangest and most gruesome killers, missing persons cases and cannibalism. Murder Mysteries: Over the years there have been several incidences which have left a big question mark in the pages of our history. In this book, we have compiled a list of the world's most profound mysteries that have been befuddling us for years. Missing: We often see flyers like this everywhere-- but the thing is, their stories are almost predictable. It could be a hyperactive child that got lost, or may be it was an adult with a mental problem. An old person suffering from Alzheimer's is also a common victim. But what if your loved one disappeared all of a sudden and you couldn't find a plausible explanation as to why it happened? They were perfectly well, in sound mind and in good physical condition-- but where did they go? Cannibalism: In the simplest of terms, cannibalism is eating the flesh of another human being. It does sound rather gruesome, doesn't it? To eat another person is an unthinkable idea for most people, and yet, did you know that it is a practice that has existed from the time our ancestors were still nomadic hunter-gatherers...?
