Written by experienced practising psychology teachers, Uncovering Psychology Workbook
VCE Units 3&4 accompanies the Uncovering Psychology VCE Units 3&4 textbook. Together,

Bookmark File PDF Uncovering You 2 Submission By Scarlett Edwards

they comprehensively cover all aspects of the VCE course in a clear and logical progression as they introduce students to the fascinating world of psychology as both theory and practice. • Every topic in every chapter from the text is covered and linked under the same heading as the text, with activities from the text to be completed in the workbook • Chapter overviews summarising all key concepts • Additional activities • A complete glossary of terms Also available in the series: • Full colour student texts with an electronic version included on CD-ROM • A student website with links to interactive activities, websites and other recent case studies A host of other valuable time-saving resources for class use, planning and assessment are available on the Teacher CD-ROM.

The truth remains: men, women, and children are plunging deeper into the entanglement of a deplorable condition. The crisis of identity plagues our world like never before. When a person's basic sense of being is altered, he or she tends to gravitate in the direction that seems to offer a deeper sense of self-worth. You are a unique individual, possessing unique gifts, talents, and abilities. You cannot be duplicated! That is why attempting to be someone else only leaves you feeling inadequate. Your identity is what makes 'you' you, and not someone else. Ignorance is no bliss! What you do not know can hinder you. In the same token, if you do not know who you are, you will stumble in your attempt to fulfill your God-given purpose. In this book, we deal with the importance of manifesting our destiny through grabbing a hold of biblical insights as to who we are in Christ. Why? The reason is 'Mankind has an identity ordained in Christ. This identity once embraced in its totality determines the course of destiny experienced.' It is time to live on purpose! There are countless millions waiting for you to show up and deliver what God has invested in you. The principles discussed in this book

Psychobiography is often attacked by critics who feel that it trivializes complex adult personalities, "explaining the large deeds of great individuals," as George Will wrote, "by some slight the individual suffered at a tender age--say, 7, when his mother took away a lollipop." Worse yet, some writers have clearly abused psychobiography--for instance, to grind axes from the right (Nancy Clinch on the Kennedy family) or from the left (Fawn Brodie on Richard Nixon)--and others have offered woefully inept diagnoses (such as Albert Goldman's portrait of Elvis Presley as a "split personality" and a "delusional paranoid"). And yet, as Alan Elms argues in *Uncovering Lives*, in the hands of a skilled practitioner, psychobiography can rival the very best traditional biography in the insights it offers. Elms makes a strong case for the value of psychobiography, arguing in large part from example. Indeed, most of the book features Elms's own fascinating case studies of over a dozen prominent figures, among them Sigmund Freud (the father of psychobiography), B.F. Skinner, Isaac Asimov, L. Frank Baum, Vladimir Nabokov, Jimmy Carter, George Bush, Saddam Hussein, and Henry Kissinger. These profiles make intriguing reading. For example, Elms discusses the fiction of Isaac Asimov in light of the latter's acrophobia (fear of heights) and mild agoraphobia (fear of open spaces)--and Elms includes excerpts from a series of letters between himself and Asimov. He reveals an unintended subtext of *The Wizard of Oz*--that males are weak, females are strong (think of Scarecrow, Tin Man, the Lion, and the Wizard, versus the good and bad witches and Dorothy herself)--and traces this in part to Baum's childhood heart disease, which kept him

from strenuous activity, and to his relationship with his mother-in-law, Matilda Joslyn Gage, a distinguished advocate of women's rights. And in a fascinating chapter, he examines the abused childhood of Saddam Hussein, the privileged childhood of George Bush, and the radically different psychological paths that led these two men into the Persian Gulf War. Elms supports each study with extensive research, much of it never presented before--for instance, on how some of the most revealing portions of C.G. Jung's autobiography were deleted in spite of his protests before publication. Along the way, Elms provides much insight into how psychobiography is written. Finally, he proposes clear guidelines for judging high quality work, and offers practical tips for anyone interested in writing in this genre. Written with great clarity and wit, Uncovering Lives illuminates the contributions that psychology can make to biography. Elms's enthusiasm for his subject is contagious and will inspire would-be psychobiographers as well as win over the most hardened skeptics.
