incorporate better templated format that reflects a lighter, more systematic approach Trim size will be reduced to 6 x 9 to better fit in a white coat pocket Index included with each book An appendix of lab values with each book Discussion and treatment for each vignette will be included on a separate page for easier self-quizzing Captions at the end of the page will be hidden to facilitate self-quizzing Mnemonics will be added as a separate pedagogical feature 4-color inserts in each book will omit the need for the accompanying color Atlas. Reviewer Quotes: This is a good supplement to second year pathology and preparation for boards and shelf-exams. Perfect for fragmentary reading, while waiting for an elevator or on the minute or two before the lecture starts. Allows the student to capture this time that is otherwise lost for productive use.- MS2, Texas Tech I think that this approach will help me on the USMLE a lot more than studying from a more detailed text. This is much more focused and provides an understanding of clinical cases, unlike most biochemistry lectures. just memorizing a lot of facts. It seems designed for those who want to kill the boards rather than just

Completely revised by new authors, this Fifth Edition presents 100 patient cases designed specifically to prepare students for clinical vignettes on the USMLE Step 1. Each case proceeds from chief complaint through diagnostic workup and treatment and includes buzzwords in history taking, physical examination, laboratory tests, imaging, and pathology. This edition's cases give greater emphasis to pathogenesis, epidemiology, differential diagnosis, management, and complications and include radiologic images, photographs, tables, and algorithms. A new two-page format encourages students to read the case presentation and formulate an initial diagnosis before turning the page for the answer. The book ends with twenty all-new board-format questions and answers.
