First of all I like to thank god for all he has done in me and my wife's life, everything from keeping us when we were in sin, until now by giving us peace and joy in our hearts. I wish I could get the men to see that no matter how we may look at life it is going to all come down to the choices that we make in life as a man. Men I feel that it is time for us to start reaching out to the men of today because a lot of our young men and adult males are really confused about their responsibilities as men and god has placed it on my heart to show men that being a man and being a saved man is the desire that God has for our lives. But my first agenda is to ensure you that whatever your are going through at this point in your life; is to let you know that someone has already gone through it and is willing to help you get through your situation so you can have joy and peace in your life. But as men we don't like to talk about what we are going through in our

life because we are taught from a young age that a man is not suppose to cry, show emotion or talk about what's going on in their minds, because that is a sign of weakness. But I want my brothers to understand that giving your life to Christ and letting him know that you need his help is not a sign weakness, but the first sign of being the man that God wants you to be. So I like for all the men of the world especially my unsaved brother to take time out of their busy schedules to read this book and know in my heart that once you read this book (Understanding and Accepting Our Responsibilities as Men) your life will never be the same again. Because I know that if I can touch the men of today and show them that they can live there life in peace, joy and love and that it is your time to receive your blessings by taking on your responsibilities as a man by giving your life to Christ first, then I know that the future for our younger generation will be promising. Men we are in a time now when our sons, daughters, and wife need us to be the men that god intended for us to be, so it's time for us to step up and take our rightful place as men in our families' life most of all in gods kingdom. Brothers you may say why is he so concern about the men, the reason is because one I am a man and the other reason is the lord put someone in my life to show me the way and through their prayers and his grace and mercy he saved me so I can understand and explain to the men of the world that we need to lead

and not just follow. The 2nd reason is I am so tired of losing so many of our young men because we are not teaching them the true meaning of being a man. (So men it's time to stand up and take your rightful place at the head of your families be it single or married and help me reach other unsaved brothers.). Bob Jackson, a young New York newsman, went to California with purpose to investigate a retired hit man's life story that led him an idea to go to El Paso ,Texas, for details of the hiding border truth; his fate put him into the net connecting drug cartels and law enforcement forces on the both sides of the United States and Mexican border down to Rosario, Argentina, where Sinoloa cartel from Mexico began to establish its new drug paradise with support of new raised local cartel Los Monos; a story tells you how an innocent newsman turned to be a DEA agent but when man makes plan, God used to make steps. This is an imaginary tale that reflects the similar situation had affected the whole American earth for many decades and that just likes an invisible killer hiding inside the whole Pan American soil.... from his tenure. His views on textbook selection, collective bargaining and the proper role of the university have all flowed from his notebook, and no problem was too minute to evade his scope. The frivolity of some of these papers is balanced by Adams's opinions on weightier issues, including sexual harassment and compensation in higher education. His approach and forward manner on these situations, despite how genuine, sometimes engendered resentment from his fellow faculty. But for those interested in the particulars of an academic career, this book offers a glimpse of what life may really be like inside the ivory tower. - Kirkus Discoveries-

This book presents the concepts and describes the methods that have helped law enforcement officers at all ranks successfully prepare for participation in law enforcement assessment centers at the local, county, State, and Federal levels. An assessment center is a process that uses many techniques and assessors in deciding whether a participant shows the skills and knowledge to perform well in specific law enforcement positions. One chapter explains what to expect in the assessment center experience, as it describes assessment center guidelines and methods. A chapter on planning for preparation and performance suggests how to structure study time, the physical and psychological preparation required, the use of advisors and mentors, preparation resources, rehearsals, and exercises. A chapter on center assessors, rating methods, and rating forms explains how assessment-center decisions and scores are derived and what they mean. Another chapter identifies and discusses the various skills and knowledge that are assessed at a center, including communication, counseling, delegation, discipline, interpersonal sensitivity, job knowledge, motivation, planning and coordination, leadership, management, and problem-solving and decision making. The concluding chapter suggests how to demonstrate knowledge, skill, and attitude in the various center exercises.

Few if any philosophical schools have championed family values as persistently as the early Confucians, and a great deal can be learned by attending to what they had to say on the subject. In the Confucian tradition, human morality and the personal realization it inspires are grounded in the cultivation of family feeling. One may even go so far as to say that, for China, family reverence was a necessary condition for developing any of the other human qualities of excellence. On the basis of the present translation of the *Xiaojing* (Classic of Family Reverence) and supplemental passages found in other early philosophical writings, Professors Rosemont and Ames articulate a specifically Confucian conception of "role ethics" that, in its emphasis on a relational conception of the person, is markedly different from most early and contemporary dominant Western moral theories. This Confucian role ethics takes as its inspiration the perceived necessity of family feeling as the entry point in the development of moral competence and as a guide to the religious life as well. In the lengthy introduction, two senior scholars offer their perspective on the historical, philosophical, and religious dimensions of the *Xiaojing*. Together with this introduction, a lexicon of key terms presents a context for the *Xiaojing* and provides guidelines for interpreting the text historically in China as well as

suggesting its contemporary significance for all societies. The inclusion of the Chinese text adds yet another dimension to this important study. The Chinese Classic of Family Reverence is sure to appeal to specialists of comparative and Chinese philosophy and to all readers interested in the enduring importance of the family.
