The fine art of painting is as varied as the life from which it springs. Each artist portrays different aspects of the world. A great artist is able to take some aspect of life and give it depth and meaning. To do this, an artist will make use of the many devices common to painting. These include composition, color, form, and texture. This engaging and dazzling reference covers the elements and principles of design in painting and the various mediums, forms, imagery, subject matter, and symbolism employed, adopted, or created by the painter. Key artworks are reproduced to clarify concepts.

An introductory history of Western art which covers everything from ancient Egyptian decorative art to modern art, and includes Internet links for further information.

Politics is about everyone. Even if you are not a politician, you cannot even vote or participate in elections. From what time do you have to arrive at school every day? What is a crime? What can we do to avoid war? Which countries should we cooperate with... These are all politics! We need to think about and discuss politics frequently in order to know more about the world, for example: How was the United States born? How did ancient Rome and China manage society? Why are elections and voting important? When did capitalism and communism appear?

Art in Story focuses on art of the ancient world, of the East and Africa, of the Middle Ages, and the Renaissance.

An introduction to painting which covers the works of such famous artists as Leonardo da Vinci, Vincent van Gogh, Henri Matisse, Jackson Pollock, and Andy Warhol. Includes Internet links.

From the invention of the camera obscura through to today's digital paintings, artists have always used technology to aid in the creation and display of their work. This book looks at how the creation of painting, sculpture, photography and more have changed over time. It also looks at how newer art mediums such as film and even computer games have changed our perception of art.
