The term "friendly fire" was coined in the 1970s but the theme appears in literature from ancient times to the present. It begins the narrative in Aeschylus's *Persians* and Larry Heinemann's *Paco's Story*. It marks the turning point in Homer's *Iliad*, Virgil's *Aeneid*, the *Chanson de Roland*, Stephen Crane's *The Red Badge of Courage* and Tim O'Brien's *Going After Cacciato*. It is the subject of transformative disclosure in Jaan Kross's *Czar's Madman*, Ron Kovic's *Born on the Fourth of July*, O'Brien's *In the Lake of the Woods* and A.B. Yehoshua's *Friendly Fire*. In some stories, events propel the characters into a friendly-fire catastrophe, as in Thomas Taylor's *A Piece of this Country* and Oliver Stone's 1986 film *Platoon*. This study examines friendly fire in a broad range of literary

contexts.

Mary was just one of the carefree young girls who went to the well at dawn to get water. I enjoyed watching her because she seemed unusually sweet and innocent- and sincere. No one knew what to think when she fled so suddenly to Elisabeth's place in Ain Karim. Rumor had it she had seen an angel, but I didn't put too much stock in that. After all, she was young and impressionable. But when she came back obviously pregnant, how the tongues did wag! I watched her from a distance, all through the years. I heard about the remarkable flight to Egypt with her husband, Joseph, and was glad they chose to return to Nazareth after all was said and done. They had a cute boy; they named him Jesus. A person couldn't help loving him. I could tell she was really wrapped up in her children, especially that boy. I had to scratch my head a few times, though, when he started doing miracles-pretty uncanny, that. But his preaching, well, that sure had a way of touching the heart. That same heart nearly broke when I saw her grief when her boy was crucified. You'll read about it through Mary's eyes, through her words and her tears, in this, her diary.

Hand-picked, pressure-tested, and full of astronaut gung ho, the young pilots of Eye of the Viper are poised for the toughest assignment of their career: the exhaustive six-month training course at Arizona's Luke Air Force Base, at a cost of \$2 million each.

Luke, the world's largest fighter wing, is the only F-16 fighter training base in the United States, and each year it produces one thousand pilots who will fly the F-16 from Korea to Afghanistan to Iraq. But being among the elite pilots who are selected for the course is by no means a guarantee that they will earn the right to fly the F-16. Only a few select individuals will have what it takes. Award-winning journalist Peter Aleshire provides a full blast of the rigors and intensity of the course--the personalities, the incredible machines, the irreverence, the bravado, and the toughness, not only of the hand-picked students seeking a place in the warrior subculture, but of the veteran pilots who must teach them how to stay alive.

giving readers one of the most riveting depictions ever written of man and machine at war.

Journeys to a Graveyard examines the descriptions provided by eight Russian writers of journeys made to western European countries between 1697 and 1880. The descriptions reveal the mentality and preoccupations of the Russian social and intellectual elites during this period. The travellers' perceptions of western European countries are treated here as an ambivalent response to a civilization with which Russia was belatedly coming into close contact as a result of the imperial ambition of the Russian state and the westernization of the Russian elites. The travellers perceived the most advanced European countries as superior to Russia in terms of material achievement and the maturity and refinement of their cultures, but they also promoted a view of Russia as in other respects superior to the western nations. Heavily influenced from the late eighteenth century by Romanticism and by the rise of nationalism in the west, they tended to depict European civilization as moribund. By this means they managed to define their own emergent nation in a contrastive way as having youth and promising futurity.

Descriptions of 30 combat missions from F-16 pilot during Operation Desert Storm.

Joseph Suss Oppenheimer (1698-1738), better known as Jew Suss, was a court Jew, who advised the Duke of Wurttemberg. Clever and handsome, even ostentatious, he fitted easily into court life, despite his humble origins. However, his unpopular economic policies made him enemies and when the Duke died suddenly Suss was arrested, convicted of 'destestable abuses' and executed in Stuttgart in an iron cage. His spectacular rise and fall inspired a

media outpouring in the eighteenth century and he has been much written about subsequently. In the twentieth century two films were made about him, one British in 1934, the other German in 1940.

Goebbels took an active interest in the latter. After the war its director, Veit Harlan, was tried for Crimes against Humanity for having made the film. Despite his acquittal, the film's association with the Holocaust remains controversial to this day. For almost three centuries the life of Jew Suss has been adapted, distorted and transformed. This book tells the story of these transformations.
