A tantric massage practice for awakening and honoring male creative energy and allowing a man conscious, loving contact with his own masculinity • Empowers men to expand and deepen their experience of arousal and sensuality • Demonstrates how deep relaxation is important to a strong and lasting erection • Shows how the lingam connects a man to his dynamic strength while the prostate is linked to his more receptive side Lingam is the Sanskrit word for the male generative organ, the penis. In India, the lingam is revered as an expression of Shiva's clarity, symbolizing the fine sword that differentiates between truth and falsehood. The goal of a lingam massage is to provide a man conscious, loving contact with his own masculinity. Western cultural expectations around sexual "performance" have created sexual difficulties for many men, including erectile dysfunction and premature ejaculation. Through loving touch, lingam massage provides the deep relaxation that supports sustained erection, putting a man in touch with less familiar aspects of his sexuality, including the energetic responses of his perineum, prostate gland, and anus. Lingam massage is not simply a hands-on technique but involves the conscious direction of energy throughout the body. It allows men to savor longer, deeper orgasms and teaches taoist and tantric practices for conserving sexual energy. Over time, as his consciousness deepens, these practices give a man complete control over his ejaculation. A prostate massage is, just like a Lingam massage, an exquisite pleasure for sex gourmets! It can be deeply relaxing or very arousing - and both at once. The prostate massage is very sensuous, however, very few men are familiar with it, as the prostate is more difficult to reach - similar to the female G-spot. Because the prostate is connected to different nerves than the penis, the feeling is completely new to some men. Furthermore, penis and prostate can be stimulated simultaneously, so unknown combinations become possible. The anal area is a taboo zone for many, or constrained with shame. Whoever dares to enter virgin soil in spite of that, learns the right technique and observes a few basic hygienic measures, will be richly rewarded for his courage. To discover anal massage for themselves is an enrichment for couples, deepens their intimacy and improves each partner's attitude towards his/her own body. Be inspired by the illustrations and short descriptions without having to read a whole book. This quick reference is high-quality laminated and thus very hard-wearing, ideal for versatile use during massage or love-making. Not your average massage guide, this book is the story of how the author earns a living working in a counselling and therapy practice that also specialises in tantra and lingam massage. You will read how she left her professional career in the UK and moved to Germany, embracing the rather more naked lifestyle. She tells us how she found work in a tantra massage studio and you can read her honest and sometimes funny descriptions of the techniques that she uses in her tantra and body to body massages. This is not a spiritual tantra kind of book. It is rather a humorous and down to look at how the author deals with the clients who want to touch her inappropriately and how she feels when there is some strong chemistry occurring on the massage table. This is an interesting book for anyone who wonders what really goes on inside a tantra massage studio, and for people who would like to learn some lingam massage techniques from someone who carries them out as part of her daily work.

A tantric massage practice for awakening and enhancing women's innate sensual, emotional, and spiritual energies • Provides emotional healing by releasing traumatic memories stored in the yoni • Includes exercises that use sexual energy to cleanse and stimulate the chakras • Empowers women to draw strength and radiant vitality from the restored connection to their innermost core "Yoni" is the Sanskrit word for the female genitalia, describing not only the anatomy but also encompassing the energetic and spiritual dimensions. While a yoni massage offers women the opportunity to enhance their sexuality, Michaela Riedl shows that the effects of this practice are much more profound and have ramifications affecting every area of life. Long held inhibitions in the West about sexuality and the shame and guilt associated with the sexual zones of the body have created deep-seated barriers that prevent individuals from fully expressing themselves. The practices provided in Yoni Massage are designed to allow women to overcome these barriers and reconnect to their innermost core and deepest feminine nature. Yoni massage is not simply a hands-on technique but involves the conscious direction of energy throughout the body through deep breathing and visualization. It provides women the ability to cleanse and energetically stimulate the chakras as well as achieve emotional healing by releasing the traumatic pain that often becomes seated in the yoni. The author explains that the relegation of this important spiritual and energetic center to a "private part" hinders the process of enlightenment. Once women are able to be in touch with their yoni energy, their connection to the entire web of life is restored to its rightful place.
