healthier, happier children with brighter futures. Book jacket.

A leading Alzheimer's expert presents a comprehensive program to help prevent and slow the progress of memory loss. There are currently more than four million Americans afflicted with Alzheimer's, and an estimated 14 million will have the disease by 2050. The good news is that everyone can make lifestyle changes to increase the odds that they will live well into old age with their mental faculties intact. Dr. Devi's groundbreaking program can help prevent the disease from developing and slow memory loss in those already suffering from the illness. By taking an active role in the management of the disease and through a combination of medication, natural hormone therapies, mental exercises, cognitive rehabilitation, and nutritional and herbal supplements, it is possible to slow the effects of this debilitating condition and improve the quality of life.

A comprehensive, all-natural program to prevent and treat sinusitis and sinus-related disorders. Complete with lifestyle and dietary changes to improve respiratory function, including alternative therapies.

- "What Your Doctor May Not Tell You About Fibromyalgia (Warner, 1999), also by Dr. St. Amand and Claudia Craig Marek, has netted over 120,000 copies and has a monthly reorder rate of 3,000 copies. This book will serve as a companion to the

File Type PDF What Your Doctor May Not Tell You About Breast Cancer How Hormone Balance Can Save Your Life What Your Doctor May Not Tell You About Paperback

hundreds of thousands of readers currently following the protocol outlined in that book.- Other titles on this subject frequently appear on Ingram's "A-list" for health books, including "Fibromyalgia (Walker & Co., 1996), which has over 350,000 copies in print, and "Fibromyalgia and Chronic Myofascial Pain Syndrome (New Harbinger Publications, 1996), which has over one million copies in print.- Dr. St. Amand discovered guaifenesin's use as a treatment for fibromyalgia, and his work is often cited. he is an Assistant Clinical Professor of Medicine and is on the teaching staff at UCLA Harbor General Hospital. He has been in practice for over 40 years.

"I Know the Cause of Sickness" is an accumulation of years working with people, who could not be cured by modern medicine and suffered pain needlessly. It tells about their amazing recovery, once the Toxic sources were eliminated. They were "poisoned" as a result of their exposure to a Toxic environment. It educates families on how to prevent colds and guard against the "flu season". IT TELLS THE TRUTH, Asthma, Pneumonia, Cancer, Fibromyalgia, Alzheimer's disease and Autism, are caused by Toxic Molds in the home or workplace. Many of these victims will die, due to the lack of knowledge re: Mold, contained in this book.

This resource provides you with handy written instructions that practitioners can hand out to their patients. The 385 guides detail patient follow-up care

at home to encourage patients to take a more active role in the management of their own disorders. Each guide includes practical information on diagnosis, treatment, when to call a physician and additional available resources. Patient education handouts are all in one source, hence there is no need to keep many different files or refer to different sources. Doctor has the option of photocopying the printed GUIDE or print directly from his/her computer using the CD-ROM. Each teaching GUIDE will be referenced in Mosbys Desktop Primary Care Consultant. This allows quick referral to the proper handout in the binder. Signs and symptoms section will allow easy differential diagnosis. It will be easy to locate the GUIDES that cover the various diseases and disorders that might causing the patients ailments. More than 300 artist sketches of treatments that will help the patient better understand the self-care described in the text. Exhaustive listings of resources the patient can turn to for more information on and support for their illness, including websites. Simple anatomical drawings in appendix will assist physician in teaching the patient about the location of their illness and what organs and body parts it effects. Wellness handouts on such topics as exercise, diet, smoking cessation, etc, will be contained in an appendix. These will assist the doctor in teaching his patients to care for themselves in a healthy, proactive manner

diagnosis of common medical conditions • The best way to prepare for tests and how to interpret the results The book includes basic facts about conditions and diseases such as cancers, asthma, bronchitis, high cholesterol and many others.

What Your Doctor May Not Tell You About

FibromyalgiaThe Revolutionary Treatment That Can Reverse the DiseaseGrand Central Publishing

What Your Doctor May Not Tell You About Fibromyalgia is the only protocol that actually treat the condition, reduces drug dependency, and offer an actual cure.

Most patients with fibromyalgia are on as astonishing array of medications--sometimes taking over 10 different medications and supplements a day to treat symptoms ranging from muscle pain and fatigue to hypoglycemia, IBS, and chronic candidiasis--and they still can't control their pain. This fourth edition of the book goes deeper into understanding the disease and the early intervention options that are available. With special attention paid to fatigue and pain management protocols, Dr. St. Armand goes into great detail about the big issues surrounding fibromyalgia today, including: A close look at supplements, including CBS oil--an unregulated market without the same scientific rigor as most medications Guaifenesin as a drug that does work, eliminating symptoms and restoring normal life to an astonishing 90 percent of the fibromyalgia sufferers A discussion of pharmaceuticals in treatment, and why "medical Band-Aids" won't treat the disease changes in disease protocol discussion of pharmaceuticals in treatment Human Papilloma Virus - HPV - is a sexually transmitted

interactions, and precautions--on thousands of prescription and nonprescription medications.

Breast cancer is a major health issue. It is the most common cancer-related cause of death in women in Australia. One in twelve Australian women will develop the disease and each year many women die from it. Conventional treatment protocols are not working and some may even be harmful. But there are prevention and treatment choices your doctor may not be telling you about. Now, Dr John Lee, a leading pioneer in natural progesterone therapy, and breast cancer researcher Dr David Zava have created a hormone balance program that could help save your life. Based on cutting-edge research, this book outlines preventive strategies as well as showing you how you can help reduce the risk of recurrence. What Your Doctor May Not Tell You About Breast Cancer offers women real choices about managing their health. A must-read for all women, medical practitioners and anyone whose life has been touched by breast cancer.

Eliminate your symptoms and live a pain-free, drug-free life.

valuable all at one place.

Houston offers a revolutionary, all-natural treatment program for reversing hypertension, the "silent killer" that affects more than 60 million Americans.

This book offers a revolutionary treatment featuring little-known over-the-counter medications.

Coronary heart disease has long been the number one killer in this country, and for decades, we have been told about five basic risk factors: elevated cholesterol, high blood pressure, diabetes, obesity, and smoking. But the truth is that heart disease is much more complex-- with close to 400 risk factors! In this innovative guide, Dr. Mark Houston helps readers discover the causes of heart disease, how to prevent and treat its debilitating effects via nutrition, nutritional supplements, exercise, weight management, and lays to rest to various myths (cholesterol is not the primary cause) based on scientific studies and medical publications. Readers will also learn how to identify the risk factors most likely to endanger them and construct an arsenal of non-pharmacological preventative strategies that can counteract this most deadly disease.

The best of Eastern & Western medicine is combined by physician-acupuncturist Raymond Chang, who offers individualized strategies for the millions of couples who want to improve their odds of conceiving.

Millions of Americans suffer from chronic back pain, but what most don't realize is that their ailment is often caused by a combination of factors. According to Dr. Debra K. Weiner, identifying the disorders that contribute to chronic back pain is a critical part of the treatment

File Type PDF What Your Doctor May Not Tell You About Breast Cancer How Hormone Balance Can Save Your Life What Your Doctor May Not Tell You About Paperback

process. To achieve lasting relief, a multifaceted, multidisciplinary approach is needed--no single pill or therapeutic procedure will solve the problem. In this authoritative guide, Dr. Weiner has distilled 20 years of research and clinical practice into an integrative six-step program. Readers will learn: how to identify the causes of their back pain and determine which treatments are most useful; how to distinguish their problem from potential misdiagnosis; traditional and alternative physical therapies and exercises; proven mind/body approaches; a guide to common medications and injections; pros and cons of different surgeries and invasive procedures; and much more.

A groundbreaking program that reveals what really causes heart disease-- and what can be done to prevent and treat its devastating effects on long-term health.

Coronary heart disease has long been the number one killer in this country, and for decades, we have been told about five basic risk factors: elevated cholesterol, high blood pressure, diabetes, obesity, and smoking. deadly disease.

The authors of the successful "What Your Doctor May Not Tell You About Fibromyalgia" present a revolutionary new guide to help sufferers relieve their chronic fatigue. Arguing that giving estrogen replacement therapy to women after menopause is medically the wrong thing to do, Lee suggests that natural progesterone can prevent most of the unpleasant side effects of menopause, including osteoporosis and weight gain.

Fibroid tumors are the leading reason why more than 500,000 American women have hysterectomies each year.

In this comprehensive guide, a preventative cardiologist lays out your options to help you prevent heart disease. Heart disease is largely preventable, but conventional cholesterol management is often inadequate. According to university cardiologist and leading prevention specialist Dr. Stephen R. Devries, avoiding heart disease requires a far more comprehensive approach that balances new high tech testing with low tech treatments. Now, in *What Your Doctor May Not Tell You About Cholesterol*, Dr. Devries combines natural treatments with the latest scientific advances. New types of cholesterol tests are highlighted that go far beyond routine testing to identify hidden risks. Expanding the traditional medical model, Dr. Devries illustrates the role of mind/body interventions, lifestyle, supplements, vitamins, and conservative use of medication for optimal prevention. "Outstanding . . . Highly recommended."
—Andrew Weil, MD "Dr. Devries is part of the new breed of integrative cardiologists who offer safe and effective

alternatives...Highly recommended.” —Stephen T. Sinatra, MD, FACC, CNS, author of Reverse Heart Disease Now “A must read if your cholesterol is high and you are trying to decide what to do about it. . . .

Devries shares his 20 years of clinical experience as an integrative cardiologist and clearly guides patients through the myriad of supplement, herbal, dietary, and medication options for cholesterol management.”

—Victoria Maizes, MD, executive director, Program in Integrative Medicine, University of Arizona

This groundbreaking program offers new treatments for the paralyzing conditions of anxiety, panic attacks, and phobias that are afflicting millions across the world.

Prozac, Zoloft, Xanax and Paxil. Insomnia, headaches, loss of libido, fatigue, and memory loss. These are just a few of the prescription medicines that millions of people are taking for anxiety -- and a few of their side effects.

Those who choose not to take medication may experience paralyzing fear, palpitations, diarrhoea and more. In fact, one in five A & E visits to US hospitals are related to anxiety. Now there is a simple, all-natural solution! Douglas Hunt offers his proven, 5-step holistic program for controlling anxiety, panic and phobias through a combination of lifestyle changes and nutritional supplements.

Dr. Edelson discusses the most common types of autoimmune diseases, outlining their symptoms, causes, and risk factors. He describes his own revolutionary program for treating the root of all autoimmune disorders--without drugs--providing readers with new hope for getting back on the road to better health.
