Marriages and babies everywhere drove me to leave town, I just hadn't expected to end up stranded on the Island of St. Martin in the Caribbean nor did I expect to have to share a room with the charter pilot. The one and only, Ford Sinclair, best friend of Ryan Townsend, my sister Amanda's, fiancé. The same man I'd refused to have a one-night stand with at my sister, Robin's wedding. I hadn't left home for anything but peace and quiet, what I found was a troubled man who also happened to be sexy, persuasive and dirty mouthed. The Kincaid Sisters is a Bad Boy Rocker spinoff series about Reece Kincaid's (Past Sins: Spicy) sisters. To many people, Big Data means Open Data: social graphs, voting records, weather patterns, and more. But who owns data? Most of our laws were written for atoms, not bits; they're woefully out of date in an information age. When you share data, does it become more or less valuable? If someone adds to your data, is it still yours? This panel will tackle the gray area of data ownership.

Technological advances have resulted in higher development of online businesses. As such, new entrepreneurs need to develop a different set of skills and strategies to be successful in the realm of digital business. *Global Entrepreneurship and New Venture Creation in the Sharing Economy* is a pivotal reference source for the latest scholarly research on knowledge and skills essential to entrepreneurs for new business start-ups in the globalized and digital age. Featuring extensive coverage on a broad range of topics such as branding, social capital, and e-commerce, this publication is ideally designed for professionals, researchers, and academicians seeking current research on developing the right mindset, culture, and behaviors for business success in the digital age.

In 1830 philosopher Auguste Comte coined the term altruism to provide a general definition for the act of selflessly caring for others. But does this modern conception of sacrificing one's own interests for the well-being of others apply to the charitable behaviors encouraged by all world religions? In *Altruism in World Religions* prominent scholars from an array of religious perspectives probe the definition of altruism to determine whether it is a category that serves to advance the study of religion.

Exploring a range of philosophical and religious thought from Greco-Roman *philia* to Judaism, Christianity, and Islam, from Hinduism in India to Buddhism and the religions of China and Japan, the authors find that altruism becomes problematic when applied to religious studies because it is, in fact, a concept absent from religion. Judaism, Christianity, and Islam reveal that followers of these religions cannot genuinely perform self-sacrificing acts because God has promised to reward every good deed. Moreover, the separation between the self and the other that self-sacrifice necessarily implies, runs counter to Buddhist thought, which makes no such distinction. By challenging our assumptions about the act of self-sacrifice as it relates to religious teachings, the authors have shown altruism to be more of a secular than religious notion. At the same time, their findings highlight how charitable acts operate with the values and structures of the religions studied.

This book provides solid answers about the rise of the last world religion. It documents its inception and growth. It also opens up the histories of the three monotheistic faiths, and shows the people of the Gospels in history. Showing who they were, their writings, and their lives documented outside the Gospels such as Lazarus who arguably lived after his resurrection until he was 120 years old and was one of the most famous people of his day. First presenting arguments against current movements to change the faith, the author offers an exploded view of the times leading up to, during, and after the lives of the Apostles and how far and fast the Gospel changed an entire world. The tumultuous timeframe when opened up will shock and amaze you. Detailing the inception, development, and growth of the religion of Antichrist is shown historically for over 500 years. This book answers such questions as how can a man become a god and where does he gain the knowledge to bring his own image to life? How does he

gain the world, and why does it follow him. In history and then real-time, the developments in religion, society, technology, and government are shown that catalyze the rise and advent of the Lawless One.

When a county initiative in the Piedmont of North Carolina forces the students at a mostly black public school on the east side to move across town to a nearly all-white high school on the west, the community rises in outrage. For two students, quiet and aloof Gee and headstrong Noelle, these divisions will extend far beyond their schooling. As their paths collide and overlap over the course of thirty years, their two seemingly disconnected families begin to form deeply knotted, messy ties that shape the trajectory of their lives. On one side of the school integration debate is Jade, Gee's steely, single, black mother, grieving for her murdered partner, and determined for her son to have the best chance at a better life. On the other, is Noelle's enterprising mother, Lacey May, who refuses to see her half-Latina daughters as anything but white. The choices these mothers make will resound for years to come. And twenty years later, when Lacey's daughters return home to visit her in hospital, they're forced to confront the ways their parents' decisions continue to affect the life they live and the people they love. **WHAT'S MINE AND YOURS** is a sweeping, rich tapestry of familial bond and identity, and a sharp, poignant look at the ways race affects even the closest of relationships. This is not just one love story, but many: It's the all-consuming volatile passion of young lovers and the quieter comfort of steady companionship; it's the often tenuous but

processes incorporated the newer view of the sage as a supernatural figure and of the eschatological character of Judaic teleology. These distinctions, as Neusner describes them, mark a shift in Jewish orientation to world history. 'Judaism and Story' documents a chapter of rabbinic tradition that explored the possibility of historical orientation by means of stories. As Neusner demonstrates, this experiment with narrative went beyond argumentation focused on the explication of the Torah. The sage story moved in the direction of biography, but without allowing biography to emerge. This development, in Neusner's account, parallels the movement from epistle to Gospel in early Christianity and thus has broad implications for the history of religions.

Developing Ecological Consciousness is a unique environmental studies textbook. Rather than working through a list of environmental problems, it aims to help students become aware of the awe and wonder of our planet, understand some of the challenges facing it, and explore possibilities for action and change. This text is appropriate for courses in a variety of disciplines, including environmental studies, biology, sociology, and political science.

the Piedmont of North Carolina rises in outrage as a county initiative draws students from the largely Black east side of town into predominantly white high schools on the west. For two students, Gee and Noelle, the integration sets off a chain of events that will tie their two families together in unexpected ways over the span of the next twenty years. On one side of the integration debate is Jade, Gee's steely, ambitious mother. In the aftermath of a harrowing loss, she is determined to give her son the tools he'll need to survive in America as a sensitive, anxious, young Black man. On the other side is Noelle's headstrong mother, Lacey May, a white woman who refuses to see her half-Latina daughters as anything but white. She strives to protect them as she couldn't protect herself from the influence of their charming but unreliable father, Robbie. When Gee and Noelle join the play meant to bridge the divide between new and old students, their paths collide, and their two seemingly disconnected families begin to form deeply knotted, messy ties that will shape the trajectory of their adult lives. And their mothers--each determined to see her child inherit a better life--will make choices that will haunt them for decades to come. As love is built and lost, and the past never too far behind, *What's Mine and Yours* is an expansive, vibrant tapestry that moves between the years, from the foothills of North Carolina, to Atlanta, Los Angeles, and Paris. It explores the unique organism that is every family: what breaks them apart and how they come back together.

This singular reference explores religion and spirituality as a vital, though often misconstrued, lens for building better understanding of and empathy with clients. A diverse palette of faiths and traditions is compared and contrasted (occasionally with secularism), focusing on areas of belief that may inspire, comfort, or trouble clients, including health and illness, mental illness, healing, coping, forgiveness, family, inclusion, and death. From assessment and intervention planning to conducting research, these chapters guide professionals in supporting and assisting clients without minimizing or overstating their beliefs. In addition, the book's progression of ideas takes readers beyond the well-known concept of cultural competence to model a larger and more meaningful cultural safety. Among the topics included in the Handbook: Integrating religion and spirituality into social work practice. Cultural humility, cultural safety, and beyond: new understandings and implications for social work. Healing traditions, religion/spirituality, and health. Diagnosis: religious/spiritual experience or
