It began with a letter Scott wrote to the CEO of his company. Amidst the economic turmoil brought on by the 2008 financial crisis, senior management solicited feedback from employees on ways to improve the operations of the firm going forward. The message resonated with Scott. He sensed a different way of doing things that by examining company values and focusing on teamwork, the firm could achieve economic profit and create a workforce of engaged, fulfilled team members. Completing this exercise had profound meaning for him. Scott began to see the power of identifying core values, establishing team culture, and developing an action plan for success. The letter turned into a blueprint for creating a new career and a life of purpose. In an enlightening account of Scott's journey of introspection and inspiration, he provides a how-to guide for transforming any area of life and delivers one profound message: living a life of fulfillment is predicated on honoring your passion and purpose and contributing meaningfully to others around you. In this moment of economic rebirth and global self-examination, there has never been a better time to follow your heart and claim ownership for your true identity. We the world and individuals cannot afford to ignore those internal impulses that are telling each of us to believe in ourselves and honor what we are most passionate about creating and contributing in our lives. The stakes political, economic, social, and spiritual are just too high not to. Join Scott as he teaches you: How to find your passion and turn it into a life of meaning What the difference is between a career and a calling What your Trajectory of Purpose is and how defining it now will improve your life forever How to start your own company from scratch and establish values of lasting success How to create a Mindset of Opportunity and see the world as a team effort How to live a life of self-leadership that allows you to call the shots and be the architect of your own life The time as always is now! When an unscrupulous stock broker took Peggy Doviak's mother to the cleaners, Peggy did not just get mad—she

changed careers. She became a CERTIFIED FINANCIAL PLANNER (TM)—vowing to ensure that what happened to her mother would never happen to anyone else. From the very first day, Peggy committed to putting her clients first through a fiduciary relationship, not realizing then that this was optional and unpopular to many so-called financial advisers. She went on to earn a master's in finance with an emphasis in financial analysis (she already had a doctorate in education). And now she works with financial literacy organizations, hosts a Knowledge Circle for the Financial Planning Association, writes a column for the Journal of Financial Planning, and hosts the syndicated radio program Ask Peggy (R). Although Peggy can't keep every consumer safe, she keeps trying.

Young Money 4 Proven Actions to Design Your Wealth While You Still Can Being young is the ultimate advantage when it comes to building wealth. It may not seem like it when you look at your student loan debt or when the rent comes due, but you have a huge amount of a priceless resource: time. You just need to know what to do with it. Rising-star financial advisor Dasarte Yarnway offers a simple four-step mastery approach anyone can follow to become a Master Wealth Builder. It's a system he himself lives by. You start by mastering the right mindset, says Yarnway. You need to always remember that you're in it for the long haul—wealth building is a marathon, not a sprint—and keep your eyes and your actions firmly fixed on your wealth-building goals. Then you have to create and master your plan. Yarnway provides advice on avoiding four critical financial pitfalls and a worksheet so you can assess exactly where you are financially, where you want to go, and how you're going to get there. Once you have a plan, you have to start working that plan by mastering income—Yarnway looks at the three best ways to do that. With income handled, you have to master expenses. Yarnway offers seven simple ways you can control your outflows and discusses how you can minimize your tax burden while still handling your civic duties. If you start wealth building now instead of ten or twenty years from now, you can experiment, learn from mistakes, bounce back from setbacks, and steadily and consistently build up your legacy. As Yarnway quotes Warren Buffet, “Someone is sitting in the shade today because someone planted a tree long ago.” The sooner you plant, the more shade you'll have.

Written specifically for the "average Joe", Joe Gibbs' notes will enlighten, encourage and inspire you as you strive to build a game plan for your life. Features:

- Book introductions for every book of the Bible. "Winning the game of life is like winning in NASCAR or the NFL—if you don't have the right game plan, you won't succeed. Like a lot of guys, I tried many "game plans." None led me to true success and a couple ended in disaster. Written for the 'average Joe' like me, I'm convinced the *Game Plan for Life Bible* will help you if you're serious about developing a successful game plan for your life." - Joe Gibbs
