In his most profound and accomplished book to date, acclaimed author Bruce Wagner breaks from Hollywood culture with a novel of exceptional literary dimension and searing emotional depth. Joan Herlihy is a semi-successful architect grasping at the illustrious commission that will catapult her to international renown, glossy décor magazines, and the luxe condo designs of Meier, Koolhaas, and Hadid: the incestuous cult of contemporary Starchitects. Unexpectedly, she finds her Venice Beach firm on the short list for a coveted private memorial -- a Napa billionaire's vanity tribute to relatives killed in the Christmas tsunami -- with life-changing consequences. Her brother Chester clings to a failing career as a location scout before suffering an accidental injury resulting from an outrageous prank; the tragicomic repercussions lead him through a maze of addiction, delusion, paranoia -- and ultimately, transcendence. Virtually abandoned by her family, the indomitable Marjorie Herlihy -- mother, widow, and dreamer -- falls prey to a confidence scheme dizzying in its sadism and complexity. And unbeknownst to Marj and her children, the father who

disappeared decades ago is alive and well nearby, recently in the local news for reasons that will prove to be both his redemption and his undoing. Spiraling toward catastrophe, separate lives collide as family members make a valiant attempt to reunite and create an enduring legacy. To rewrite a ruined American dream. Deeply compassionate and violently irreverent, Memorial is a testament to faith and forgiveness, and a luminous tribute to spirituality in the twenty-first century. With an unflagging eye on a society ruptured by natural and unnatural disaster, and an insatiable love for humanity, Wagner delivers a masterpiece.

Middle-aged, Single White Female Takes a Drive 3 months, 10,000 miles alone to the middle of nowhere. "So how was your trip?" they asked. First of all, she turned 50. Isn't that how it goes with aging? It was an outrage—how did this happen? Her children grown, husband gone to cancer, their business sold—Gloria Jean had reached middle age; she was on her own. Next! Was it a bucket list thing, life too short? Didn't matter, Vagabond Chic beckoned; the first day of the rest of something lay ahead as her bold vision materialized, and once inspired, the odyssey seemed to plan itself. Months of

research stretched to two years of getting prepared—a journey all its own. “We do not take a trip,” said John Steinbeck in his *Travels with Charley*. “A trip takes us.” This would come to mind many times as her May to September journey commenced. She drove the main streets of outer space—small towns, cheap motels, an assortment of critters, and more than once, a high spirited, didn’t-see-it-coming, moment. Train whistles echoed divine exhilaration across the prairie, as America was browsed beyond any route imagined, passing unnoticed along northern borders—Lake Superior to Fargo, the quiet solace of Wounded Knee in Dakota; the eureka moment in Hathaway, Montana; and the extraordinary personal discovery in Sheridan, Wyoming. Isolation weighed heavy at times, but the search for her personal holy grail weaves a compelling, serendipitous plot straight to its unforeseen conclusion. If it’s courage you seek for your own long-held inner something: “Courage is feeling the fear and doing it anyway.” Oprah said.

Current philosophies of art remain sadly dominated by visions of its end and lamentations of decline. Defining the very notions of art and the aesthetic as special products of Western modernity, they suggest that postmodern challenges to traditional high culture pose a devastating danger to Art's future. Richard Shusterman's new book cuts through the seductive confusions of these views by tracing the earthy roots of aesthetic experience and showing how the recent flourishing of aesthetic forms outside modernity's sacralized realm of fine art evince the persistent presence of an artistic impulse far deeper and more durable than the modernist moment. *Performing Live* defends the abiding power of aesthetic experience by exploring its diverse roles, methods, and meanings, especially in fields marginal to traditional aesthetics but now most vibrantly alive in today's culture and new media. Ranging from rap, techno, and country music to cinema, cyberspace and urban design, Shusterman develops his

radical theory of "somaesthetics," charting the complex network of bodily arts so prominent in contemporary life and self-styling. By blending concrete aesthetic analysis with insightful social critique, Shusterman, a well-known pragmatist philosopher, provides a rich menu and critical guide for today's pursuit of the art of living.

When the San Diego Comic-Con was founded in 1970, it provided an exclusive space where fans, dealers, collectors, and industry professionals could come together to celebrate their love of comics and popular culture. In the decades since, Comic-Con has grown in size and scope, attracting hundreds of thousands of fans each summer and increased attention from the media industries, especially Hollywood, which uses the convention's exclusivity to spread promotional hype far and wide. What made the San Diego Comic-Con a Hollywood destination? How does the industry's presence at Comic-Con shape our ideas about what it means to be a fan? And what can this single event tell us about the relationship between media industries and their fans, past and present? Only at Comic-Con answers these questions and more as it examines the connection between exclusivity and the proliferation of media industry promotion at the longest-running comic convention in North America.

Around a year ago I published 'Writing about music' an anthology (which is just a posh way of saying 'collection') of writing previously published in varying forms in varying places, curated (which is just a posh way of saying 'cobbled together') into one volume. I've been living high on the royalties ever since. Or I would have been if anybody had been prepared to buy it. Like most items of dubious quality it has, however, proved mildly popular when given away free. This second volume, with the imaginative title of 'More writing about music', is similar to the first, a collection of gig and album reviews, interviews with 'pop stars' and a mish mash of other oddities. Includes interviews with Paul Carrack, Tom Smith, John Flansburgh (They Might Be Giants), Geoff Downes (Yes),

Randall Moss is known around Fort Walton, Florida, as a loud-mouth braggart and a spaced-out petty crook. As he prepares to carry out his dream job, Moss knows he cannot do it alone. He gathers an eclectic group of beer-loving thugs in his backyard to formulate a plan, thinking that nothing can go wrong.

Unfortunately, Moss's instincts have never been spot on. Two journalists describe their whirlwind efforts to become famous in two weeks by getting their names and faces in magazines, newspapers, and on television. The rising strength of mainland China has spurred a revival of "Chineseness" in the Philippines. Perceived during the Cold War era as economically dominant, political disloyal, and culturally different, the "Chinese" presented themselves as an integral part of the Filipino imagined community. Today, as Filipinos seek associations with China, many of them see the local Chinese community as key players in East Asian regional economic development. With the revaluing of Chineseness has come a repositioning of "Chinese" racial and cultural identity. Philippine mestizos (people of mixed ancestry) form an important sub-group of the Filipino elite, but their Chineseness was occluded as they disappeared into the emergent Filipino nation. In the twentieth century, mestizos defined themselves and based claims to privilege on "white" ancestry, but mestizos are now actively reclaiming their "Chinese" heritage. At the same time, so-called "pure Chinese" are parlaying their connections into cultural, social, symbolic, or economic capital, and leaders of mainland Chinese state companies have

entered into politico-business alliances with the Filipino national elite. As the meanings of "Chinese" and "Filipino" evolve, intractable contradictions are appearing in the concepts of citizenship and national belonging. Through an examination of cinematic and literary works, *The Chinese Question* shows how race, class, ideology, nationality, territory, sovereignty, and mobility are shaping the discourses of national integration, regional identification, and global cosmopolitanism.

A singer calls out to the crowd. An electric bass thumps out a beat. Horns blare and strings swirl. These are the sounds of R & B. Rhythm and blues music evolved from all sorts of sounds: swinging jazz, gritty blues, and African American spiritual songs. The music's smooth mix of styles made it unique, and its passionate performers made it a sensation. Ever since Ray Charles hit the charts in the 1950s, R & B fans have held it down on dance floors. And R & B singers have belted out messages of love and calls for social change.

British Rock Modernism, 1967-1977 explains how the definitive British rock performers of this epoch aimed, not at the youthful rebellion for which they are legendary, but at a highly self-conscious project of commenting on the business in which they were

engaged. They did so by ironically appropriating the traditional forms of Victorian music hall. Faulk focuses on the mid to late 1960s, when British rock bands who had already achieved commercial prominence began to aspire to aesthetic distinction. The book discusses recordings such as the Beatles' Magical Mystery Tour album, the Kinks' The Village Green Preservation Society, and the Sex Pistols' Never Mind the Bollocks, Here's the Sex Pistols, and television films such as the Beatles' Magical Mystery Tour and the Rolling Stones' Rock and Roll Circus that defined rock's early high art moment. Faulk argues that these 'texts' disclose the primary strategies by which British rock groups, mostly comprised of young working and lower middle-class men, made their bid for aesthetic merit by sampling music hall sounds. The result was a symbolically charged form whose main purpose was to unsettle the hierarchy that set traditional popular culture above the new medium. Rock groups engaged with the music of the past in order both to demonstrate the comparative vitality of the new form and signify rock's new art status, compared to earlier British pop music. The book historicizes punk rock as a later development of earlier British rock, rather than a rupture. Unlike earlier groups, the Sex Pistols did not appropriate music hall form in an ironic way, but the band and their manager Malcolm McLaren were obsessed with the meaning of the past for the present in a distinctly modernist fashion.
