"Our feline companions are much-loved but often mysterious. In *The Inner Life of Cats*, Thomas McNamee blends scientific reportage with engaging, illustrative anecdotes about his own beloved cat, Augusta, to explore and illuminate the secrets and enigmas of her kind."--

Escape into a world of cat closeups, meme humor, and kitty-centric trivia that will have you twirling your whiskers. Ever wonder what cats are thinking behind their gaze? So do we, and despite our best efforts, this book won't answer that question. But it will make you smile, laugh, and squeeze your kitty a little tighter. A must-have for every cat lover, *Cat Selfies* blends hilarious cat closeups and surprising feline trivia. Can a single litter of kittens have multiple fathers? Was a Connecticut cat once placed under house arrest? Do cats really hold grudges? All these questions and many, many more are answered within, plus buckets of cuteness and cattitude behind every page turn. And did we mention that all fifty-plus cats featured were rescued? At the time they were photographed, each of these beauties was either in search of a forever home or recently placed in one, reinforcing what we all know—Adoption is Always the Best Option. So, let your curiosity be your guide and escape into the funny and delightful world of *Cat Selfies*.

Have you ever wondered where house cats come from? How bobcats and lynxes are related? Whether cheetahs and mountain lions are big cats? This eBook addresses those and other questions about four transcontinental feline lines -- big cats, the puma and its relatives, lynxes, and wildcats. It isn't a textbook or research paper (although plenty of those are listed in the reference section!). It is an easy-to-read introduction to some of the world's most beautiful and mysterious predators. And it comes with images and links to useful and reliable online information about all of these endangered species -- as well as links to even more images and some videos, because cats are beautiful. Buy this handy guide to Family Felidae's international lineages and meet almost twenty different felines today!

The advertising slogan of the social news site Reddit is "Come for the cats. Stay for the empathy." Journalists and their readers seem to need no explanation for the line, "The internet is made of cats." Everyone understands the joke, but few know how it started. A Unified Theory of Cats on the Internet is the first book to explore the history of how the cat became the internet's best friend. Internet cats can differ in dramatic ways, from the goth cats of Twitter to the glamourpusses of Instagram to the giddy, nonsensical silliness of Nyan Cat. But they all share common traits and values. Bringing together fun anecdotes, thoughtful analyses, and hidden histories of the communities that built the internet, Elyse White shows how japonisme, punk culture, cute culture, and the battle among different communities for the soul of the internet informed the sensibility of online felines. Internet cats offer a playful—and useful—way to understand how culture shapes and is shaped by technology. Western culture has used cats for centuries as symbols of darkness, pathos, and alienation, and the communities that helped build the internet explicitly constructed themselves as outsiders, with snark and alienation at the core of their identity. Thus cats became the sine qua non of cultural literacy for the Extremely Online, not to mention an everyday medium of expression for the rest of us. Whatever direction the internet takes next, the "series of tubes" is likely to remain cat-shaped.

Across the world, cats are loved as pets or are kept or tolerated for their role in controlling some animal pests. But cats, both pets and feral, also kill many native animals and this toll can

be enormous. Cats have been remarkably successful in Australia, spreading pervasively across the continent and many islands, occurring in all environments, and proving to be adept and adaptable hunters. A large proportion of Australia's distinctive fauna is threatened and recent research highlights the significant role that cats play in the decline and extinction of native species. Cats in Australia brings this research together, documenting the extent to which cats have subverted, and are continuing to subvert, Australia's biodiversity. But the book does much more than spotlight the impacts of cats on Australian nature. It describes the origins of cats and their global spread, their long-standing and varying relationship with people, their global impacts and their ecology. It also seeks to describe the challenge of managing cats, and the options available to constrain their impacts.

"Laugh-aloud funny, quirky and original." -- Buzzword Books Meet Tuck & Ginger, two kidnapped kitties whose time is rapidly running out.
