The Cure emerged in the post-punk 70s and defied all expectations to launch a marathon career marked by hit records and a string of sell-out arena shows. In 2004, after numerous personnel changes, the band delivered their Greatest Hits album in 2004. This biography traces the roots in middle-class Crawley, Sussex and tracks their gradual rise, revealing how their first major album Pornography, almost ended the band well before their multi-platinum career began. It also documents Smith's escape into the Siouxsie & The Banshees camp during the Eighties, his experimentation with every drug ('bar smack'). His reluctance to

But when Brian's current diva girlfriend convinces him to try out for my play, there's no way to avoid him. I try to keep it professional, but years of anger and resentment are hard to dismiss. His very public kiss is an act of kindness to save me from humiliation, but it leads the entire school to think that we're dating. Which is just crazy...right?

"I accepted the certainty of my untimely death with gallows humor and a calculator. I'd read somewhere that each cigarette you smoke knocks seven minutes off your time on the planet. To amuse myself, I did the math: 153,000 cigarettes = two years of my life, up in smoke." Julia Hansen first lit up at nineteen. Twenty years later, she was editing books about health -- and smoking a pack or two a day. She denied her son fast food, but smoked in the house and car; curtailed his video games, but lit up at his soccer matches. Despite repeated attempts to quit, she always crawled back to her beloved menthol lights. Smoking had become a metaphorical chain around her neck, shackling her to an early death. Haunted by a nightmarish vision of her future -- her son at her deathbed, begging her not to leave him -- Hansen devised a drastic quit method. She bought a 72-foot length of chain that was "unwieldy as a corpse" and locked herself to a radiator in her dining room. What followed: seven days of cold-turkey misery, comic absurdity, and revelation as Hansen stepped from behind her wall of smoke to face her addiction to nicotine -- and some painful truths. Clanking around her house like Marley's ghost, white-knuckling cravings, and struggling to understand tobacco's unyielding grip on her, Hansen confronted her life in smoke: fractured relationships, lifelong battles with alcohol and depression, and a profound sense of emptiness. On day 1, the chain was her addiction to nicotine, each link a story about cigarettes and self-loathing. By day 7, it had revealed its ringing, rattling truth -- that every smoker has a story, and it always

centers on clinging to a comfort that can kill you. In the end, Hansen's story was painfully simple: She smoked to survive her life. And then, to save it, she quit. Fierce and funny, honest and utterly absorbing, *A Life in Smoke* is Julia Hansen's evocative and inspiring account of the extreme measures she took to quit smoking -- decidedly not recommended by the medical profession.

Magic realism has always been my thing well before I learnt what it is called. My story Alan's Jinx came to me while lying on my bed one cold winter morning when I was expected to visit a site for a site-specific assignment. I was amused at a comment made by my then lecturer Nina. 'Lilian, did it really happen?' she asked, and it amused me a lot. I also read a number of stories which gave me even more ideas into the encouragement of mixing reality and fiction. One or two of the stories are close to reality though, but I had them livened up to make them more fascinating. The titles, I think, befit the stories because, without planning, it appears they all talk about the changes that have happened in the main character's lives at some point or

other. Short stories appeal to me more than novels, so I opted to major in that, rather than in novels at my final year in Uni. I was very determined to publish a book, no matter how hard or impossible it might prove to be, because lots of my mates gave up their Creative Writing courses to go and do other things, mainly because, one lecturer ungracefully inferred that some of us would never become writers. I was not in that class, but when I heard that, it made me rather more determined to become a writer, no matter how badly I wrote. So if you are reading this today, it means I overruled his prediction. Glory be to God.

Oscar Wilde once stated: "I think that God in creating Man somewhat overestimated his ability." Thankfully, the authors featured in *Wilde Stories 2014* possess the ability to create men on the page that love and risk and suffer and mourn, deeds that deserve telling despite the frailties of fictional flesh. Once more editor Steve Berman has collected a variety of stories that range from the fantastical to the eerie to surreal; yet all possess the spark of imagination that is what brings storytelling the closest to a divine act of wonder an individual can perform.
