these effects wane or do not fully occur, repeat the behaviors until the desired results become evident. Carol McCormick is a certified personal trainer and a certified health coach through the American Council on Exercise, one of the top fitness organizations in the world. I'M HUNGRY! I'M BORED! was born out of her great concern for children and adults who struggle with weight-related personal and social issues. Overweight children are falling prey to a host of “adult” diseases, and many are taunted, teased, and bullied because of their appearance. Adults are not immune to this discrimination, as they are also “sized-up” when searching for a date or seeking a career. These painful emotions often cause both children and adults, not only to feel sad or upset, but also inferior and insecure. As these physical, emotional, and social problems intensify, feelings of unhappiness may also increase. Habits instilled in your children now often follow them into their future. In helping them, you will be helping yourself, because what works for them will work for you too, if you need a nudge in this direction. I'M HUNGRY! I'M BORED! provides the blueprints needed to lay a strong foundation and create new behaviors that lead to better health, a leaner physique, and a happier life!

I have purchased the ' Personalized Back Cover' option and this is the text that should appear at the back cover of my book: Is there room for yet another book on PhD-writing? Yes there is. Most of the available publications on this topic are contributions from professional academics, written from the perspective of supervisors or examiners rather than from that of successful candidates. Most of them are too long and not always user-friendly, while their approach is, more often than not, too scientific to be accessible to the average candidate. It is with these considerations in mind that the author, an average doctoral candidate who wrote his PhD thesis while working full-time, submitting his written work for examination within 24 months of becoming registered as a research student in one of the UK's top Law Schools, set out to write this book, which is, uniquely, written from a student's perspective. What makes of this work an original contribution is not the novelty of the topic addressed in it but, rather, its brevity,

This short book contains a wealth of practical advice and guidance on the issues involved in conceptualizing, organizing and writing your doctoral thesis so that you can increase your chances of surviving the ordeal of PhD thesis writing with the least amount of pain and with the minimum investment in terms of the time and effort spent pursuing your objective.

This concise guide tells you how to write a novel by using a systematic approach to writing. This guide is written by an author not a 'guru'. A simple step by step breakdown of how to plan each day. No fillers and no theory, just the hard facts in a concise guide. There are many guides about writing novels on the market but how many of them are written by prolific published authors? The answer is 'not many'. How can anyone write a guide unless they have been through the writing process many times before? The simple answer to this question is they can't because they cannot feed on their own actual experiences to help another writer to avoid the mistakes and pitfalls. Most guides regurgitate information which they have picked up from creative writing books or sites. How can they give you advice when they have never sat down and focused on creating a novel which

If you want a system to apply to writing a book, then you need to take advice from an ‘author’ who has taken years to develop the process via experience.

This teaching guide is the result of 3 years of thinking, trying, rethinking, and trying again with an assignment sequence in which one instructor attempted to address the personal as well as the academic needs of students in the Program of Intensive English at the University of California at Santa Barbara. According to the guide, many of these students--Hispanics, African Americans, Asian Americans, Native Americans, and Caucasians--lack fluency in written English and find writing onerous. The guide states that the writing sequence combines reading, short writing exercises, and journal entries, plus individual and group activities that culminate in a series of essay assignments. It explains that this series focuses on the heritage and backgrounds of students, and takes them from "Noting Down" journal writings; through "Looking Back" personal recollection and family stories; through "Looking Into" research projects and research papers; to the "Thinking Through" thesis essay. The guide states that the curriculum is structured so that each assignment builds not only on preceding exercises and essay assignments, but also anticipates those that follow, and includes an introduction to the student's notebook that synthesizes all that has been discussed, written, and experienced. Appended are reading assignments, a list of
