Jane was an aspiring writer, who, like everyone else before her, parachuted fearlessly into the writing jungle. And, like everybody else, she got hung up on a tree with her parachute. That tree was the sub craft *How to Write in Limited POV*. Looking around, she notices a hundred more trees on which other aspiring writers are hung up. She cuts the parachute lines, drops to the ground, makes a summersault forward, and jumps to her feet. Around her, writers of all ages are cutting paths through the thicket. "Help?" She calls out. Well-meant answers arrive from all directions. "Create an interesting character and give her a great goal." "Write what you want to read." "Create a sense of wonder." "The more conflict, the better." "Don't write to get published, grab the reader." "Be captivating. Or memorable." "Keep the reader turning pages." "Be unpredictable and keep the reader curious." Jane scans the area. She can't see more than ten meters into the thicket. How she wishes she had a map and a navigation system. Five years later, Jane is still cutting her way through the writing wilderness. She has climbed eighty-one writing skill trees, crossed the suspense valley, ascended the romance mountain, and walked the Hero's Journey track, but the storytelling jungle remains a tangle. How she wishes she had a map and a navigation system. Most books about writing specialize in one, two, or three crafts, but none focuses on the overview (yep, that's a paradox). Until now. The map and navs are finally here: *The Eight Crafts of Writing* and the supplementary book *The Eight Crafts Navigation System*.

So you wanna write a nonfiction book? Great! But where do you begin? With some quick research you'll discover that 95% of people who start to write their book never finish it. Well that's a bit disheartening, isn't it? It must be really hard if so many people gave up before they even finished. The truth is, it's not actually all that difficult, but there is some work involved, and that's one of the reasons why so many people quit when the novelty of being a writer wore off. They had this pie-in-sky fantasy of sitting at their keyboard and letting their muse take over... that the words would just flow through them as their fingers danced across the keyboard. Hogwash! That's not the way it works. Waiting for inspiration to strike means you might have one book finished by the time you're on your death bed... and your book will probably suck. Sorry, but it's true. If you don't spend time honing your craft by only writing when you "feel" like it, or you don't have your ideas organized properly so people can make sense of your book, if you actually finish it, it's not going to be very good. But... There is a "secret" to writing. Do you want to know what it is? The secret to writing is to write. That's it. That's the big secret. Write every day and every day your writing will get better. It doesn't matter if you are writing fiction, non-fiction, a

screenplay, or a song, you have to organize your thoughts and ideas or else you'll end up with gibberish that nobody will want to read. I've written all those things - I'm a published songwriter, author, filmmaker, and I wrote a weekly newspaper column, so I have a wee bit of experience, which is why I wrote this guide... to share my experiences with you to save you time, money, and frustration so you're not just another wannabe writer who kinda-sorta tried but gave up. Let me help you be the exception to the rule so you actually finish your book. But why non-fiction? Because they are easier to write. AND they're easier to sell. Ignore those so-called gurus who tell you to find a profitable niche and write about it because chances are, you'll grow tired or bored (or both) and give up. With my guide, you'll learn how to find profitable niches you actually want to write about! You'll learn how to outline and organize your book so you're not writing blind. And you'll learn about formatting, book covers, and pricing your book. But what if you don't want to sell your book? What if just knowing you are helping people is reward enough? In this guide you'll learn why charging for your book will actually help more people than giving it away for free! If you always want to write a book but didn't know where to start, or perhaps you're worried that you're not an 'expert' or have enough authority in your niche to write a book about it, then this guide is for you. "One of these days, is none of these days." That old proverb pretty much sums it up... if you keep waiting until "one of these days" to write that book you keep saying you're going to write, you'll never write it! I know it, you know it... so stop thinking about writing your book and let's get started! AND, at only 99 cents\* for the ebook version of my guide, you have no excuse for not getting started right now! Order my guide today and start writing your book tomorrow! \*\*\*

Guides readers in writing and publishing a book, including creating authentic characters, editing, and finding an agent.

The award-winning author “provides mentoring and practical and technical advice in this handy how-to book . . . as useful to teachers as to young writers” (School Library Journal, starred review). Storytelling is a universal experience. From an early age, we begin to shape our own world by crafting tales. But learning to tell—and write—a good story isn’t easy. It takes dedication and practice, just like for a musician or an athlete, and it can be just as rewarding to accomplish as winning a game or mastering an instrument. It’s the kind of work that feeds our souls and makes us glad to be alive. In *What’s Your Story?*, Newbery Medal-winning author Marion Dane Bauer discusses how to write fiction from beginning to end, including creating a story plan, choosing the best idea, bringing characters to life, deciding on a point of view, creating realistic dialogue, keeping readers hooked, and revising and polishing the finished product. “Her last comment is telling: ‘Knowing your craft can help you tell a story. But only by taking risks can you make art.’ After many pages of provocative information and straightforward counsel, that sentence may be the one to launch youngsters to the challenge. The book speaks directly to young writers, but many adults (teachers, librarians, reviewers, editors, would-be writers) will also find this sensible dissection of the storytelling process invaluable.”—Kirkus Reviews (starred review) “A pragmatic, organized approach to story writing . . . the exercises and thought processes introduced as groundwork come across as stimulating rather than tedious and may serve to hone analytical skills as well as inspire even the most reluctant writers to try their hand.”—Publishers Weekly
