Pop Culture Yoga: A Communication Remix was born out of a series of questions about the paradoxical nature of yoga: How do individuals and groups define yoga? What does it mean to "practice yoga", and what does this practice involve? What are some of the most important principles, guidelines, or philosophical tenets of yoga that shape people's definitions and practices? Who has the power and authority to define yoga? What are the limits, if any, of shared definitions of yoga? Kristen C. Blinne explores the myriad ways "yoga" is communicatively constructed and defined in and through popular culture in the United States. In doing so, Blinne offers insight into the many identity work processes in play in the construction of yoga categories, illuminating how individuals' and groups' words and actions represent practices of claiming--part of a complex communicative process centered around membership categorization--based on a range of authenticity discourses. Employing popular culture writing styles, Blinne ultimately contends that the majority of yoga styles practiced in the United States are remixes that can be classified as pop culture yoga, a distinct way of understanding this complex phenomenon.

It is widely accepted that the key to rising incomes for workers, for investors, and (indirectly) for welfare recipients is innovation. New ideas provide opportunities for investment in new products, new processes, and new markets. Exploitation of these opportunities by intrapreneurs and entrepreneurs gives rise to increases in labor productivity, which in turn lead to higher primary incomes for workers and investors and, via government redistributive mechanisms, larger transfers to welfare recipients. Since technology is the driver of innovation and the key to the subsequent economic and distributional benefits of this innovation, there is a need for researchers and businesspersons to have access to up-to-date information on emerging technologies and the business opportunities they provide. *Technological Breakthroughs and Future Business Opportunities in Education, Health, and Outer Space* discusses the economic, social, and cultural benefits that new technologies can provide in multidisciplinary industries with a unique emphasis on looking towards the impacts of these technologies across the next two decades. Within this theme, the book discusses the recent trends, future developments, and business opportunities surrounding new technologies including information technology and biotechnology. Additionally, the book investigates recent demands and disruptions in the health and education sectors as well as recent developments and forthcoming opportunities in the outer space sector and how newer technologies can enable and meet the growing demands of these industries. While covering all these technologies and their applications, this book is an ideal reference work for entrepreneurs and intrapreneurs, teachers, technologists, analysts, IT specialists, engineers, policymakers, medical professionals, government officials, space agencies, financial planners, public officials, and researchers and students working in areas that include but are not limited to technology, education, public health, medicine, business and management, aeronautics, and public policy.

This volume explores the unique psychiatric needs of active and former military personnel and offers clinical pearls for the optimal delivery of care for these individuals. Written by experts in military and veteran psychiatry, this book addresses the most common issues in military and veteran patients, including depression, traumatic brain injury, posttraumatic stress disorder, substance use disorder, homelessness, and suicidality. Chapters highlight the characteristics of veterans suffering from each disorder that requires special treatment, making it a valuable resource for both military and civilian clinicians. *Veteran Psychiatry in the US* is a valuable resource for all mental health clinicians working with or seeking to work with veterans, including psychiatrists, neurologists, primary care physicians, psychologists, counselors, social workers, nurses, residents, and all others.

Scottish-Iranian woman who became a champion racing cyclist in spite of having been abandoned by her family, and who set off on the adventure of a lifetime despite her lack of experience, money or equipment. Ishbel Holmes was determined to cycle the world but her journey took a completely unexpected turn when, despite her initial instincts not to, she rescued a street dog in Turkey. Ishbel was lost and alone when she started on her epic trip, but in Lucy found a companionship never previously known. Between the two there formed a deep bond and their relationship was followed and supported by thousands of readers online, before becoming a media sensation overnight when Ishbel put out a plea for help to transport Lucy to an animal shelter three hundred miles away. This heart-rending tale is about more than just the relationship between a woman and her dog. It is a testimony to the human spirit, overcoming present-day challenges and churning up long-buried and painful memories from Ishbel's earlier life. It is also a tale of adventure, one person's determination to cross an unfamiliar country by bike and the unforgettable scenes that greet her on the Turkey-Syria border and into Syria itself. And it is a loving portrait of Lucy, the street dog that was determined not to let Ishbel go and whose dogged persistence helped to break down the barriers around her heart and in so doing change her life in ways she had never imagined. Ultimately, this is a tale of love and healing, a modern fable that touches the soul and reminds us all of the need to belong.

Fourteen-year-old Jamie is growing too fast! Friends taunt him that his feet are so big the last time he stepped in a puddle, they called it the Mississippi River. As Jamie moves from 8th to 9th grade, Dad expects Jamie to join traditional sports, like football. Instead, Road Whiz, a retired greyhound racing dog, inspires Jamie to run. He starts training to run 5Ks. Like the retired greyhound, Jamie struggles with the question of why should he run? Does he run to win, or does he run because he loves running? With Road Whiz as his mentor, Jamie faces the challenges in his life, from family changes to his own growing body. This middle grade novel will mesmerize boys who struggle with the idea of competition. Jamie's resolution of his doubts, fears and hopes about competing will inspire boys as they experience their own disturbing, if inevitable, growth

Deeply personal essays and daily prompts for self-reflection while healing from addiction and walking the road of recovery from the author of Meditations from the Mat and Meditations on Intention and Being. You are a process that has called forth a teaching for this day. This teaching will not be new to you; rather it will be reminding you of what you already know. Reminding you of who you already are. Rolf Gates, author of Meditations from the Mat, has walked the walk of the 12-step method of recovery while traveling down the Buddhist eightfold way and practicing the Eight Limbs of Classical Yoga. His integrated approach has been the key to his understanding of sobriety for over 25 years. In his series of 365 essays, Gates explores the lessons and experiences from his own practice and study, classical teachings, and his career as a teacher and coach. Each eloquent and brief essay is accompanied by a self-reflection prompt to help guide you on your journey of introspection and change. As the co-founder of the Yoga + Recovery Conference at Kripalu Center for Yoga and Health and Esalen Institute, Gates has made a significant contribution to understanding the role that yoga can play in recovery from addiction. With his personalized approach to both the modern and classic teachings and by embedding it within the space of the human heart and everyday life, Gates is a solid guide to finding and living the freedom that lives within each of us.
